Her Bond With My Little Brother

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog and the owner's 8-year-old brother spend an afternoon together: a hallway greeting, a gentle ball roll, a shared snack break, a backyard walk and resting side by side.

TIMELINE

0-5s	After-school greeting
5-10s	Gentle ball roll
10-15s	Snack break
15-20s	Backyard stroll
20-25s	Resting together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (After-school greeting): Narrow front hallway, afternoon daylight from a small window, sneakers and a backpack dropped on the grey tile floor. An 8-year-old boy kneels down in his school hoodie and the dog trots over, tail swinging low and wide, and sniffs his ear while he wraps one arm loosely around her neck. The owner's shoes are visible at the edge of frame. Sound: tags jingling, the boy giggling, owner says "she waited all day for you". 5-10s (Gentle ball roll): Living room with a worn brown rug and a low coffee table, soft afternoon window light. The boy sits cross-legged on the rug and rolls a faded blue rubber ball across the floor. The dog lies on her belly a few feet away, stops the ball with her front paws, then nudges it back toward him with her nose. Sound: ball rolling on the floor, a soft thump, the boy saying "your turn". 10-15s (Snack break): Small kitchen, beige tile floor, overcast light through the window above the sink. The boy sits on a kitchen chair eating apple slices from a plate while the owner stands nearby at the counter. The dog sits politely next to his chair, watching, and the owner's hand gives her one plain carrot stick instead. Sound: crunching, the fridge humming, owner says "carrot for you, not apple cores". 15-20s (Backyard stroll): Fenced backyard, late afternoon overcast daylight, patchy grass and a plastic slide in the corner. The boy walks slowly along the wooden fence and the dog walks right beside his leg, matching his pace and sniffing the grass. The owner films from a few steps behind, keeping close. Sound: birds, shoes on grass, distant lawn mower, the boy humming. 20-25s (Resting together): Living room couch area, warm table lamp switched on as the evening gets darker, a cartoon playing on a TV that faces away from the camera. The boy lies on the rug with his head on a cushion and the dog lies pressed against his side, her chin on his shoe, eyes half closed. Sound: faint TV voices, the dog's deep sigh, quiet breathing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
