Walking the Kids to the Bus Stop

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A school-day morning: leash on by the door, walking down the sidewalk with the kids, waiting at the corner, watching the bus leave and trotting home with the owner.

TIMELINE

0-5s	Leash on
5-10s	Sidewalk walk
10-15s	Waiting at the corner
15-20s	Watching the bus go
20-25s	Trotting home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Leash on): Front entryway, early morning, grey daylight through the frosted door glass, kids' backpacks and rain boots on a mat. The dog stands wiggling by the door while the owner's hand clips a red leash to her collar. Two kids in jackets wait behind her, one zipping up his coat. Sound: leash clip clicking, tags jingling, kids chatting, owner says "okay, everybody ready?". 5-10s (Sidewalk walk): Quiet suburban sidewalk, cool overcast morning, damp concrete, parked cars and small front lawns. The owner holds the leash and the dog walks calmly beside the two kids, who carry their backpacks a step ahead. The camera is low and handheld, showing the dog's back and the kids' sneakers. Sound: footsteps, backpack zippers jingling, a car passing slowly, birds. 10-15s (Waiting at the corner): Street corner bus stop, overcast morning, a grass strip and a metal pole with no readable sign. The kids stand with the owner while the dog sits on the grass next to the owner's legs, ears up, looking down the road. The younger kid pats the top of her head. Sound: distant traffic, kids laughing, the dog's soft whine. 15-20s (Watching the bus go): Same corner, grey morning light. A yellow school bus pulls away down the street in the background. The dog stands on the grass on a short leash, tail slowly wagging, watching the bus, then looks up at the camera with her ears softly back. Sound: bus engine rumbling away, air brakes hissing, owner says "they'll be back later". 20-25s (Trotting home): Residential sidewalk heading back, overcast morning, wet leaves along the curb. The dog trots a little ahead on the loose red leash, sniffing a mailbox post, then glances back at the owner. The owner's free hand holds a travel coffee mug at the edge of frame. Sound: claws tapping on concrete, tags jingling, a neighbor's dog barking in the distance.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Leash on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Front entryway, early morning, grey daylight through the frosted door glass, kids' backpacks and rain boots on a mat. The dog stands wiggling by the door while the owner's hand clips a red leash to her collar. Two kids in jackets wait behind her, one zipping up his coat. Sound: leash clip clicking, tags jingling, kids chatting, owner says "okay, everybody ready?".

Clip 2 | 5-10s | Sidewalk walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
