Playing Fetch With Grandpa

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A visit to grandpa's house: a gentle hello on the porch, grandpa's slow underhand throws on the lawn, the drop at his feet, a water break and a rest by his lawn chair.

TIMELINE

0-5s	Porch hello
5-10s	Underhand throw
10-15s	Drop at his feet
15-20s	Water break
20-25s	Resting by the chair

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Porch hello): Old wooden front porch, mid-morning sunshine, a green rocking chair and potted geraniums. Grandpa in a flannel shirt sits in the chair and the dog walks up calmly, rests her head on his knee and lets him rub her ears with both hands. The owner films from the porch steps. Sound: wood creaking, birds, grandpa chuckling "there's my girl". 5-10s (Underhand throw): Grandpa's front lawn, clear morning daylight, slightly long grass and a chain-link fence along the side. Grandpa stands near his lawn chair and tosses a worn yellow tennis ball with a short underhand throw. The dog lopes after it at an easy pace and scoops it up. Sound: ball bouncing on grass, grandpa's "go get it", a car passing far away. 10-15s (Drop at his feet): Same lawn, bright morning, grandpa now sitting in a folding lawn chair. The dog trots back with the tennis ball, carefully drops it right next to his brown shoes and sits, staring at the ball and then up at him, tail sweeping the grass. Sound: soft thud of the ball, panting, grandpa saying "you're faster than me". 15-20s (Water break): Side of the house by an old garden spigot, morning shade, a dented metal bowl on the concrete path. The dog laps water noisily, drops falling from her chin onto the concrete. Grandpa's hand rests on her back for a moment while he stands beside her. Sound: loud lapping, dripping water, wind chimes nearby. 20-25s (Resting by the chair): Front lawn under a maple tree, dappled shade, late morning. Grandpa sits in his lawn chair with a glass of iced tea on a small table. The dog lies stretched out in the grass beside his chair, panting softly, the tennis ball between her front paws. Sound: leaves rustling, ice clinking in a glass, panting slowing down.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
