Learning to Wait at the Door

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A short door-manners session: sit before the door opens, holding the wait while it opens, a small slip and reset, walking out on the release word and a treat on the porch.

TIMELINE

0-5s	Sit at the door
5-10s	Door opens slowly
10-15s	Slip and reset
15-20s	Release word
20-25s	Porch reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Sit at the door): Front hallway, late afternoon, warm overhead light switched on, a jacket rack and a pile of shoes by the wall. The dog stands by the front door with her leash on. The owner's hand raises a flat palm and she sits on the mat, ears forward, eyes on the door. Sound: tags jingling, owner says "sit... wait" quietly. 5-10s (Door opens slowly): Same hallway, daylight spilling in as the owner's hand slowly opens the front door. The dog stays sitting on the mat, her front feet shifting slightly and her tail twitching, staring out at the front yard but holding her position. Sound: door hinge squeaking, outside birds getting louder, owner says "good wait". 10-15s (Slip and reset): Same doorway, outside daylight. The dog gets up and takes one step toward the open door. The owner gently closes the door partway, and she backs up and sits again on the mat, licking her lips, eyes on the owner's hand. Sound: door creaking, owner says "oops, try again", a soft sigh from the dog. 15-20s (Release word): Open front door, view onto a small concrete porch and a front lawn, partly cloudy afternoon. The owner says the release word and the dog stands and walks calmly through the doorway onto the porch, the leash hanging loose from the owner's hand. Sound: owner says "okay", claws on concrete, distant kids playing. 20-25s (Porch reward): Front porch, afternoon daylight, a doormat and a potted plant by the steps. The dog sits facing the owner, and the owner's hand gives her a small treat from a pouch on the hip. She crunches it and wags, then looks out toward the street. Sound: treat pouch rustling, crunching, owner says "that's how we do it".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sit at the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Front hallway, late afternoon, warm overhead light switched on, a jacket rack and a pile of shoes by the wall. The dog stands by the front door with her leash on. The owner's hand raises a flat palm and she sits on the mat, ears forward, eyes on the door. Sound: tags jingling, owner says "sit... wait" quietly.

Clip 2 | 5-10s | Door opens slowly

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
