Learning to Find My Keys

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Teaching the dog a useful trick: sniffing the keys, finding them on the floor, finding them under a cushion, a harder search in the hallway and a proud reward.

TIMELINE

0-5s	Sniffing the keys
5-10s	First easy find
10-15s	Under the cushion
15-20s	Hallway search
20-25s	Proud reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Sniffing the keys): Living room, mid-morning, natural daylight from a large window, grey couch and a wooden floor. The owner crouches and holds a small ring of keys on a leather tag in front of the dog's nose. She sniffs it carefully, nostrils working, ears forward. Sound: keys jingling softly, sniffing, owner says "this is keys, smell it". 5-10s (First easy find): Same living room, daylight, wooden floor. The keys lie in plain view in the middle of the floor. The dog walks over with her nose down, touches the keys with her nose and then sits right beside them, looking back at the owner. Sound: claws on wood, keys clinking as her nose bumps them, owner says "yes!". 10-15s (Under the cushion): Grey couch, soft morning light, a striped throw pillow on the floor. The dog sniffs along the floor and stops at the pillow, nosing it aside with her snout until the key ring shows underneath, then pokes the keys with her nose. Sound: fabric rustling, sniffing, keys jingling, owner laughing "you found it". 15-20s (Hallway search): Narrow hallway, daylight from the living room behind, coats on hooks and boots lined up on a rubber tray. The dog walks slowly along the boots, sniffing each one, and stops at a tall brown boot, pushing her nose into it and wagging. Sound: sniffing, tags clinking, owner whispering "where are they?". 20-25s (Proud reward): Same hallway, daylight. The owner's hand pulls the key ring out of the boot and holds it up, then gives the dog a small piece of cheese. She sits tall, gulps it down and wags her whole back end in the hallway. Sound: keys jingling, a quick gulp, owner says "best key finder ever".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sniffing the keys

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Living room, mid-morning, natural daylight from a large window, grey couch and a wooden floor. The owner crouches and holds a small ring of keys on a leather tag in front of the dog's nose. She sniffs it carefully, nostrils working, ears forward. Sound: keys jingling softly, sniffing, owner says "this is keys, smell it".

Clip 2 | 5-10s | First easy find

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Same living room, daylight, wooden floor. The keys lie in plain view in the middle of the floor. The dog walks over with her nose down, touches the keys with her nose and then sits right beside them, looking back at the owner. Sound: claws on wood, keys clinking as her nose bumps them, owner says "yes!".

Clip 3 | 10-15s | Under the cushion

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
