Recall Practice in the Park

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Recall training on a long line in an empty park: sniffing around, coming when called, a distraction test with a passing jogger, a sit in front and a fast game of tug.

TIMELINE

0-5s	Free sniffing
5-10s	Coming when called
10-15s	Jogger distraction
15-20s	Sit in front
20-25s	Tug game

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Free sniffing): Large empty city park on a weekday morning, light fog lifting, wet green grass and bare trees in the distance. The dog wanders about twenty feet away on a long orange training line, sniffing the grass. The line trails across the ground to the owner's hand. Sound: crows, distant traffic, the line swishing in the grass. 5-10s (Coming when called): Same park, misty morning daylight. The owner calls her name and the dog's head pops up, and she spins and runs straight toward the camera, ears back, the long line bouncing on the wet grass behind her as she closes the distance. Sound: owner calls her name and "come!", fast paws thudding, panting. 10-15s (Jogger distraction): Park path along the grass, cool hazy morning. A jogger in a grey hoodie runs past on the paved path in the background. The dog looks at the jogger, starts to step that way, then hears her name and turns back toward the owner. Sound: jogger's footsteps fading, owner calls "this way", tags jingling. 15-20s (Sit in front): Open grass, morning light breaking through the haze. The dog arrives and sits square in front of the owner's sneakers, looking straight up into the camera, mouth open and panting. The owner's hand slides a treat right into her mouth. Sound: panting, crunching, owner says "perfect recall". 20-25s (Tug game): Same park, brighter morning, wet grass sparkling a little. The owner pulls a short rubber tug toy out of a jacket pocket and the dog grabs it, tugging backward and shaking her head side to side while the owner holds on. Sound: playful growling, rubber squeaking, owner laughing "okay, you win".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Free sniffing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Large empty city park on a weekday morning, light fog lifting, wet green grass and bare trees in the distance. The dog wanders about twenty feet away on a long orange training line, sniffing the grass. The line trails across the ground to the owner's hand. Sound: crows, distant traffic, the line swishing in the grass.

Clip 2 | 5-10s | Coming when called

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. Sound: playful growling, rubber squeaking, owner laughing "okay, you win".

FACEBOOK CAPTION

Ignored the jogger AND came back. Huge win.
How is your dog's recall?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
