Loose Leash Walking Practice

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A neighborhood loose-leash session: a few calm steps out of the driveway, stopping when she pulls, turning around, walking past a barking dog behind a fence and a reward at the corner.

TIMELINE

0-5s	Calm start
5-10s	Stop when pulling
10-15s	Turn around
15-20s	Passing a barking dog
20-25s	Corner reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Calm start): Driveway in front of a small house, late afternoon, partly cloudy sky, a recycling bin at the curb. The dog stands next to the owner's left leg on a loose black leash. The owner takes a step and she steps with him, glancing up at the camera. Sound: birds, a distant leaf blower, owner says "let's go, nice and easy". 5-10s (Stop when pulling): Neighborhood sidewalk, afternoon light, trimmed hedges along the path. The dog spots something ahead and pulls the leash tight. The owner stops walking completely and stands still. After a moment she looks back at him and the loose leash goes slack again. Sound: leash creaking tight, owner says "nope, we wait", a car passing. 10-15s (Turn around): Same sidewalk, partly cloudy afternoon. The owner turns and walks the other way and the dog quickly turns too, trotting back to catch up to his left leg, her head close to his knee and the leash hanging in a loose curve. Sound: sneakers on concrete, tags jingling, owner says "good, stay with me". 15-20s (Passing a barking dog): Sidewalk next to a tall wooden privacy fence, afternoon shade. A small dog barks behind the fence but cannot be seen. The dog flicks one ear toward the fence and keeps walking calmly beside the owner, the leash still hanging loose. Sound: loud yapping behind the fence, owner whispering "leave it, good girl". 20-25s (Corner reward): Street corner with a patch of grass and a fire hydrant, late afternoon sun low behind the houses. The owner stops and the dog sits beside his leg. His hand gives her a small treat and she wags, then sniffs the hydrant. Sound: crunching, sniffing, owner says "best walk this week".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Calm start

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Driveway in front of a small house, late afternoon, partly cloudy sky, a recycling bin at the curb. The dog stands next to the owner's left leg on a loose black leash. The owner takes a step and she steps with him, glancing up at the camera. Sound: birds, a distant leaf blower, owner says "let's go, nice and easy".

Clip 2 | 5-10s | Stop when pulling

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
