Learning "Place" on Her Mat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Teaching the place command with a grey mat: stepping onto the mat, lying down, staying while the owner walks away, holding during a doorbell sound and a release with praise.

TIMELINE

0-5s	Stepping on
5-10s	Lying down
10-15s	Owner walks away
15-20s	Doorbell test
20-25s	Release and praise

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Stepping on): Open living room, evening, ordinary ceiling lights on, a grey rectangular dog mat on the laminate floor next to a bookshelf. The owner points to the mat and the dog walks over and steps onto it with all four paws, then looks up for the next cue. Sound: claws on laminate, owner says "place", a TV muttering in another room. 5-10s (Lying down): Same living room, warm lamp light. The dog stands on the grey mat, and the owner's hand lowers toward the floor. She folds down into a down position, front paws stretched out on the grey mat, and licks her nose once. Sound: soft thump as she lies down, owner says "good, stay". 10-15s (Owner walks away): Living room from a few steps back, evening lamp light. The owner backs toward the kitchen doorway, the camera moving away from the mat. The dog stays lying on the mat, head up, eyes following the owner, tail thumping once on the floor. Sound: footsteps on laminate, the fridge humming, the tail thump. 15-20s (Doorbell test): Same living room, evening, ceiling light on. A doorbell sound rings from a phone speaker held off camera. The dog's ears shoot up and she lifts her head toward the front door, but her body stays down on the mat. Sound: doorbell chime, one soft woof, owner whispering "stay... stay". 20-25s (Release and praise): Living room, warm evening light, grey mat by the bookshelf. The owner walks back, kneels and says the release word. The dog jumps up off the mat and pushes her head into the owner's chest while both hands scratch her neck. Sound: owner says "free!", happy whining, tags jingling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Stepping on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Open living room, evening, ordinary ceiling lights on, a grey rectangular dog mat on the laminate floor next to a bookshelf. The owner points to the mat and the dog walks over and steps onto it with all four paws, then looks up for the next cue. Sound: claws on laminate, owner says "place", a TV muttering in another room.

Clip 2 | 5-10s | Lying down

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Living room, warm evening light, grey mat by the bookshelf. The owner walks back, kneels and says the release word. The dog jumps up off the mat and pushes her head into the owner's chest while both hands scratch her neck. Sound: owner says "free!", happy whining, tags jingling.

FACEBOOK CAPTION

She held it through the doorbell. I almost cried.
Does your dog know "place"?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
