Making Peace With the Neighbor's Cat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Slow, calm progress with the neighbor's orange cat: spotting her on the fence, a calm look from a distance, a careful sniff through the fence gap, lying down nearby and a treat for staying calm.

TIMELINE

0-5s	Cat on the fence
5-10s	Calm look
10-15s	Sniff through the gap
15-20s	Lying down nearby
20-25s	Calm reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Cat on the fence): Backyard in the late morning, bright overcast sky, a wooden fence with a ginger cat sitting on top of a post. The dog stands in the middle of the lawn on a leash, staring at the cat with ears up and tail held still, not moving. Sound: birds, the cat's tail flicking against wood, owner whispering "easy". 5-10s (Calm look): Same backyard, overcast daylight, patchy grass. The owner stands next to the dog holding a loose leash. The dog looks at the cat on the fence, then looks away at the owner, and the owner's hand gives her a small treat for looking away. Sound: crunching, owner says "good, look at me", a wind chime. 10-15s (Sniff through the gap): Fence line, overcast late morning. The ginger cat sits on the neighbor's side, visible through a wide gap between two fence boards. The dog walks up slowly on the leash and gently sniffs toward the gap, tail low and relaxed, while the cat calmly sniffs back. Sound: soft sniffing, a quiet meow, owner says "so gentle". 15-20s (Lying down nearby): Backyard lawn a few feet from the fence, soft daylight. The dog lies down on the grass facing the fence, chin on her paws. The ginger cat walks slowly along the top of the fence above her and the dog only watches it with her eyes. Sound: leaves rustling, distant traffic, the dog's calm breathing. 20-25s (Calm reward): Same spot on the lawn, overcast daylight. The cat has jumped down out of sight on the other side. The owner kneels and gives the dog a piece of chicken and rubs her chest. She stays relaxed and wags her tail slowly. Sound: owner says "so proud of you", tail swishing in grass, birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Cat on the fence

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Backyard in the late morning, bright overcast sky, a wooden fence with a ginger cat sitting on top of a post. The dog stands in the middle of the lawn on a leash, staring at the cat with ears up and tail held still, not moving. Sound: birds, the cat's tail flicking against wood, owner whispering "easy".

Clip 2 | 5-10s | Calm look

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
