Meeting a Tortoise in the Garden

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The neighbor's pet tortoise visits the garden: the dog spots it, a slow approach on leash, a careful sniff, lying down to watch and a calm reward.

TIMELINE

0-5s	Spotting the tortoise
5-10s	Slow approach
10-15s	Careful sniff
15-20s	Lying down to watch
20-25s	Calm reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Spotting the tortoise): Small garden with raised vegetable beds, warm sunny afternoon, short grass and a brick path. A small brown tortoise moves along the grass near a bed of lettuce. The dog stops on the path, head tilted, ears forward, staring at it. Sound: bees buzzing, birds, owner whispering "look who's visiting". 5-10s (Slow approach): Same garden, bright afternoon sun. The owner holds a short leash and the dog walks slowly toward the tortoise, placing each paw carefully, neck stretched out. The neighbor's legs in green gardening clogs stand right beside the tortoise, watching everything closely. Sound: grass rustling, neighbor saying "she's very calm", tags clinking. 10-15s (Careful sniff): Close shot on the grass, sunny afternoon. The dog lowers her nose and gently sniffs the top of the tortoise's shell from a few inches away. The tortoise keeps moving slowly. The dog pulls her head back a little and sneezes. Sound: quiet sniffing, a small sneeze, the owner laughing softly. 15-20s (Lying down to watch): Garden lawn, warm afternoon light, raised beds behind. The dog lies down on the grass with her front paws stretched out, watching the tortoise slowly walk away from her toward the lettuce. Her ears twitch and her nose keeps working. Sound: bees, a lawn mower far away, the dog's calm breathing. 20-25s (Calm reward): Brick garden path, afternoon sun. The neighbor gently picks up the tortoise with both hands in the background. In the foreground the owner's hand gives the dog a treat and strokes her head while she sits relaxed on the warm bricks. Sound: crunching, owner says "so gentle with her", birds singing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spotting the tortoise

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Small garden with raised vegetable beds, warm sunny afternoon, short grass and a brick path. A small brown tortoise moves along the grass near a bed of lettuce. The dog stops on the path, head tilted, ears forward, staring at it. Sound: bees buzzing, birds, owner whispering "look who's visiting".

Clip 2 | 5-10s | Slow approach

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
