MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Lying by the sandbox): Backyard on a warm sunny afternoon, a wooden sandbox with plastic shovels and a red bucket. Two small kids dig in the sand while their mom sits on the sandbox edge right beside them. The dog lies on the grass next to the sandbox, head up and watching. Sound: plastic shovels scraping, kids chattering, birds. 5-10s (Watching them build): Same sandbox, bright sun, short green grass. A little girl pats a sand castle with her shovel while mom helps her flip a bucket. The dog rests her chin on the wooden edge of the sandbox, eyes moving between the kids, ears relaxed. Sound: sand pouring, the girl saying "look, a castle", mom laughing. 10-15s (Sniffing the bucket): Edge of the sandbox, afternoon sunshine. The little boy holds out a red bucket full of sand toward the dog with mom's hand on his back. The dog gently sniffs the sand, then sneezes and pulls her head back a little. Sound: sniffing, a sneeze, both kids giggling, mom says "she says no thanks". 15-20s (Pats from the kids): Same backyard, warm light, sandbox in the background. The little girl brushes sand off her hands and gently pats the dog's back while mom kneels next to her guiding her hand. The dog lies still and slowly wags her tail across the grass. Sound: mom says "soft hands", tail swishing, kids humming. 20-25s (Resting on the steps): Back patio steps, late afternoon sun, sandy little footprints on the concrete. Mom sits on the steps with a glass of water while the kids play in the sandbox a few feet away. The dog lies on the bottom step beside mom's feet, eyes still on the kids. Sound: kids playing, ice in a glass, the dog's slow breathing.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
