Reading Time With My Daughter

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An evening reading routine: the dog brings herself to the reading corner, lies down beside the daughter, listens to the story, gets a page-turn pat and falls asleep with dad turning off the lamp.

TIMELINE

0-5s	Joining the corner
5-10s	Lying beside her
10-15s	Listening
15-20s	Page-turn pat
20-25s	Falling asleep

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Joining the corner): Kid's bedroom reading corner, evening, a warm floor lamp on, a beanbag chair and a fuzzy pink rug. A 7-year-old girl sits in the beanbag holding a picture book with the pages facing away from the camera. The dog walks in and circles once on the rug. Sound: soft footsteps, the girl says "you came for the story". 5-10s (Lying beside her): Same reading corner, warm lamp light, toy shelf in the background. The dog lies down on the pink rug right against the beanbag and rests her head on the girl's leg. The girl holds the open book up, pages turned away from the camera. Sound: a contented dog sigh, pages rustling. 10-15s (Listening): Close shot in the reading corner, evening lamp light. The girl reads aloud in a quiet voice while the dog's ears twitch toward her voice. The book's plain cover faces the camera with no readable words, pages facing the girl. Sound: the girl reading softly, a clock ticking, dad says off camera "she loves this one". 15-20s (Page-turn pat): Same bedroom corner, lamp light. The girl turns a page, which faces away from the camera, then reaches down and strokes the dog's head with one hand. The dog closes her eyes and leans her head into the girl's hand. Sound: page flipping, a soft groan from the dog, the girl giggling. 20-25s (Falling asleep): Kid's bedroom, evening getting darker, only the floor lamp on. The girl now lies in bed under a striped blanket with the book closed on the nightstand. The dog sleeps curled on the rug beside the bed and dad's hand clicks off the lamp. Sound: lamp switch clicking, quiet breathing, dad whispering "goodnight, girls".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
