Helping Dad Fix the Fence

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Dad repairs a loose fence board while the dog keeps him company: inspecting the gap, sitting back while he works, carrying a small stick, checking the finished fence and a break together.

TIMELINE

0-5s	Inspecting the gap
5-10s	Sitting back
10-15s	Carrying a stick
15-20s	Checking the fence
20-25s	Break together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Inspecting the gap): Backyard on a breezy Saturday morning, partly cloudy, a weathered wooden fence with one board hanging loose. Dad in work gloves and jeans kneels by the fence. The dog walks up and sniffs the gap between the boards, tail wagging slowly. Sound: wind, birds, dad says "yep, that's the one you found". 5-10s (Sitting back): Same fence line, partly cloudy morning, grass and a toolbox on the ground. Dad holds a hammer and lines up the board with his gloved hands. The dog sits on the lawn a safe distance back, about ten feet away, watching him with her ears up. Sound: a few hammer taps, the dog's tail sweeping grass, dad humming. 10-15s (Carrying a stick): Backyard lawn near the fence, breezy daylight. While dad keeps working in the background, the dog trots around the yard proudly carrying a small stick in her mouth, then lies down in the grass far from the toolbox and chews it. Sound: hammer tapping, stick crunching, wind in the trees. 15-20s (Checking the fence): Fence line, late morning, clouds moving. The repaired board sits straight and dad has put the hammer back in the closed toolbox. The dog walks along the fence and sniffs the new nails and board, then looks back at dad. Sound: sniffing, toolbox latch clicking, dad says "inspector approved?". 20-25s (Break together): Back patio, late morning, a plastic patio chair and a water bottle. Dad sits down with his gloves off and the dog lies down next to his chair. His hand scratches behind her ear as she leans against his leg. Sound: water bottle crinkling, a big dog sigh, dad says "good help today".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Inspecting the gap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
