Mom's Gardening Partner

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A morning in the flower beds with mom: following her to the garden, lying by the kneeling pad, sniffing fresh soil, drinking from the watering can puddle and resting in the shade.

TIMELINE

0-5s	Following mom out
5-10s	By the kneeling pad
10-15s	Sniffing soil
15-20s	Watering can puddle
20-25s	Shade rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Following mom out): Back door opening onto a small garden, sunny spring morning, stepping stones and flower beds with tulips. Mom walks out in rubber boots carrying a small plastic tray of seedlings. The dog follows right behind her legs, tail swinging happily. Sound: screen door creaking, birds, mom says "come on, partner". 5-10s (By the kneeling pad): Flower bed along the house, bright morning sun, dark soil and a green foam kneeling pad. Mom kneels on the pad and pats soil around a seedling with her gloved hands. The dog lies down on the grass right beside her, chin on her paws. Sound: soil patting, bees buzzing, mom humming. 10-15s (Sniffing soil): Same flower bed, sunny morning, freshly turned soil. The dog stands and stretches her neck to sniff the fresh soil near a new plant. Mom's gloved hand gently points away and the dog steps back onto the grass without digging. Sound: sniffing, mom says "sniff only, no digging", birds. 15-20s (Watering can puddle): Garden path, morning sun, a green metal watering can set down on the stepping stones with a small puddle beside it. The dog laps water from the puddle on the stone, then lifts her head with drops falling off her chin. Sound: lapping, water trickling, mom laughing "that's for the plants". 20-25s (Shade rest): Under a lilac bush at the edge of the garden, late morning, cool shade and soft grass. The dog lies on her side in the shade while mom sits on an upturned bucket nearby pulling off her gloves. The dog's ear flicks at a passing bee. Sound: bees, leaves rustling, a gentle snore starting.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Following mom out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
