Greeting Me After Work Every Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The daily after-work welcome: waiting by the window, the happy greeting at the door, bringing a toy, following the owner to change clothes and the evening walk together.

TIMELINE

0-5s	Waiting at the window
5-10s	Door greeting
10-15s	Bringing a toy
15-20s	Following upstairs
20-25s	Evening walk

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Waiting at the window): Living room front window, early evening, grey dusk outside and one table lamp on inside. Filmed by the partner from the couch. The dog sits on the floor with her front paws on a low window seat, ears up, staring out at the driveway. Sound: quiet room, a car pulling in outside, the dog's excited whine. 5-10s (Door greeting): Front hallway, evening, warm ceiling light, a work bag dropped by the door. The owner steps in and the dog wiggles in circles around his legs, tail whipping, then leans her full weight against his knees while he rubs her sides. Sound: keys jingling, happy whining, owner says "hi, hi, I missed you too". 10-15s (Bringing a toy): Same hallway, warm light, shoes by the wall. The dog runs off and comes right back with a floppy plush duck in her mouth, pushing it into the owner's hands and wagging so hard her whole back end swings from side to side. Sound: squeaker squeaking, claws on wood floor, owner laughing. 15-20s (Following upstairs): Carpeted staircase, evening, hallway light on. The owner walks up the stairs and the dog follows one step behind still carrying the plush duck, then lies down and waits at the top while he changes into a comfortable hoodie off camera. Sound: footsteps on carpet, a drawer opening, the toy squeaking. 20-25s (Evening walk): Quiet residential street at dusk, streetlights just turning on, cool air. The dog walks on a loose leash beside the owner's sneakers, sniffing a neat lawn edge and a mailbox post, then looking up at him with her tail wagging. Sound: crickets, footsteps, distant dog barking, owner says "best part of my day".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Waiting at the window

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Living room front window, early evening, grey dusk outside and one table lamp on inside. Filmed by the partner from the couch. The dog sits on the floor with her front paws on a low window seat, ears up, staring out at the driveway. Sound: quiet room, a car pulling in outside, the dog's excited whine.

Clip 2 | 5-10s | Door greeting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
