MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Arriving with her bed): Grandparents' front porch, late afternoon, warm sunlight, a wicker bench and potted ferns. The owner carries a rolled-up dog bed and a small bag of food while the dog trots up the steps. Grandma opens the door and the dog walks in wagging. Sound: screen door creaking, grandma says "our sleepover girl is here". 5-10s (Exploring): Grandparents' living room, afternoon sunlight, floral couch, a cuckoo clock and a patterned rug. The dog walks slowly around the room sniffing the couch, a basket of yarn and grandpa's slippers, her nose working and her tail wagging gently the whole time. Sound: clock ticking, sniffing, grandpa chuckling "she's checking everything". 10-15s (Dinner in the kitchen): Old-fashioned kitchen, early evening, yellow overhead light, linoleum floor with a faded pattern. Grandma pours dry kibble from the owner's bag into a steel bowl and sets it down. The dog waits seated on the linoleum, then eats when grandma says okay. Sound: kibble rattling, grandma says "okay, eat", crunching. 15-20s (Walk with grandpa): Quiet old neighborhood street at dusk, big trees and older houses, a few porch lights on. Grandpa walks slowly holding the red leash and the dog walks beside him at his slow pace, sniffing the grass strip by the sidewalk. Sound: crickets, grandpa's footsteps, a porch screen door far away. 20-25s (Sleeping by the bed): Grandparents' bedroom, night, a small bedside lamp on, quilted bedspread. The dog's own bed is on the carpet next to grandma's side of the bed. The dog lies curled in it and grandma's hand reaches down to stroke her head before the lamp clicks off. Sound: soft quilt rustling, lamp click, grandma whispering "goodnight, sweetheart".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
