MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Setting up): Front yard on a hot sunny Saturday, a folding table at the edge of the lawn by the sidewalk, a plastic pitcher and paper cups. Two kids arrange the cups while dad stands beside the table unfolding a chair. The dog sniffs the table legs, tail wagging. Sound: cups clacking, kids chatting, dad says "she wants to work too". 5-10s (Greeting a neighbor): Same front yard by the sidewalk, bright sun. A neighbor in a sun hat walks up to the table. The dog sits beside the table on a leash held by dad, wagging, and the neighbor bends down to give her a quick ear scratch. Sound: neighbor says "what a sweet helper", kids laughing, birds. 10-15s (Sitting by the stand): Front lawn next to the folding table, sunny late morning, a painted cardboard sign facing away from the camera. The kids pour lemonade into a cup for a customer while dad sits in the folding chair. The dog sits calmly next to his chair watching the sidewalk. Sound: lemonade pouring, coins clinking, a car driving by slowly. 15-20s (Water break in shade): Under a large tree on the front lawn, hot midday sun with deep shade, a plastic water bowl on the grass. The dog laps water and then lies down in the cool shade, panting, while the kids keep working the stand in the background with dad. Sound: lapping, panting, cicadas buzzing. 20-25s (Packing up): Front yard, early afternoon, bright sun. Mom folds the table with the kids while dad carries the empty pitcher. The dog trots alongside the kids toward the front door, carrying a crumpled paper cup gently in her mouth, tail wagging. Sound: table legs folding with a clank, kids cheering "we sold out!", tags jingling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
