Saying Goodbye at the Door in the Morning

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Weekday morning goodbyes as each family member leaves: dad first, then the kids, a last check from mom, watching from the window and settling down for the quiet day.

TIMELINE

0-5s	Dad leaves first
5-10s	Kids head out
10-15s	Last check from mom
15-20s	Watching from the window
20-25s	Settling down

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Dad leaves first): Front hallway, early morning, cool blue daylight through the door window, coats and an umbrella stand. Dad in a work jacket crouches and scratches the dog's chest, then opens the door. She stands at the doorway, tail wagging slowly, watching him go. Sound: door opening, dad says "be good, see you tonight", birds outside. 5-10s (Kids head out): Same hallway, morning light, backpacks lifted off hooks. Two kids give the dog a quick hug around the neck, one after the other, while mom stands right behind them holding their lunch bags. The dog licks the younger kid's cheek. Sound: kids giggling, zippers, mom saying "okay, shoes on". 10-15s (Last check from mom): Front entry, bright morning daylight, mom's keys and purse on a small table. Mom kneels and holds the dog's face gently in both hands, then gives her a small treat from a jar by the door. The dog crunches it and sits. Sound: treat jar lid clinking, crunching, mom says "guard the house". 15-20s (Watching from the window): Living room front window, morning sunlight, sheer curtains pulled aside. The dog stands with her front paws on the low window seat, watching a car back out of the driveway, ears up and tail still. Filmed by the grandmother who stays home. Sound: car engine fading, a soft whine, a clock ticking. 20-25s (Settling down): Living room, quiet morning, sunlight laying a bright patch on the carpet. The dog walks away from the window, turns in a circle on the sunny patch and lies down with a heavy sigh, resting her chin on a stuffed toy. Sound: a big dog sigh, the house quiet, a bird chirping outside.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
