Weigh-In Day at the Vet

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quick vet visit just to check her weight: walking in, stepping onto the floor scale, a treat from the tech, a friendly check from the vet and a happy exit to the car.

TIMELINE

0-5s	Walking in
5-10s	Onto the scale
10-15s	Treat from the tech
15-20s	Quick check
20-25s	Happy exit

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Walking in): Vet clinic waiting room, weekday afternoon, bright fluorescent lights, grey speckled floor and plastic chairs along the wall. The dog walks in on a short leash, nose down, sniffing the floor and the leg of a chair, tail low but wagging. Sound: door chime, a phone ringing at the desk, sniffing. 5-10s (Onto the scale): Corner of the waiting room, fluorescent lighting, a large flat black floor scale with its display facing away from the camera. The owner pats the scale and the dog steps onto it with all four paws and stands still, looking up at the owner. Sound: owner says "up, stand", the scale beeping, a cat meowing somewhere. 10-15s (Treat from the tech): Same spot by the scale, clinic lights. A vet tech in blue scrubs crouches beside the scale and offers the dog a small treat on her flat palm. The dog takes it gently and wags, still standing on the scale. Sound: crunching, tech says "perfect, same as last time", owner laughing. 15-20s (Quick check): Small exam room, bright overhead light, a steel exam table and a cabinet with jars. The vet in a white coat kneels on the floor and runs her hands along the dog's ribs and back. The dog stands calmly, ears relaxed, licking her lips once. Sound: vet says "she's in great shape", paper rustling, ventilation humming. 20-25s (Happy exit): Clinic parking lot, partly cloudy afternoon, a silver hatchback with the rear door open. The dog trots out of the clinic beside the owner, tail high, and jumps into the back seat on her own, then turns around and looks at the camera, panting. Sound: car door, traffic nearby, owner says "good girl, home time".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Walking in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Vet clinic waiting room, weekday afternoon, bright fluorescent lights, grey speckled floor and plastic chairs along the wall. The dog walks in on a short leash, nose down, sniffing the floor and the leg of a chair, tail low but wagging. Sound: door chime, a phone ringing at the desk, sniffing.

Clip 2 | 5-10s | Onto the scale

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
