Her First Day at Doggy Daycare

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog's first day at daycare: arriving at the front desk, meeting a staff member, the first sniff of the indoor play area, pickup time and a tired ride home.

TIMELINE

0-5s	Arriving
5-10s	Meeting the staff
10-15s	First sniff inside
15-20s	Pickup time
20-25s	Tired ride home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Arriving): Doggy daycare lobby, early morning, bright overhead lights, rubber flooring and a front desk with a leash rack. The dog stands beside the owner's legs on a leash, sniffing the air with ears up and turning her head toward distant barking. Sound: distant dogs barking, a bell on the door, owner says "big day today". 5-10s (Meeting the staff): Same lobby, morning lights. A young staff member in a green daycare t-shirt crouches and lets the dog sniff her hand, then gives her a treat. The dog wags and sniffs the staff member's pocket while the owner holds the leash. Sound: staff says "hi sweetheart, welcome", crunching, tags jingling. 10-15s (First sniff inside): Indoor play room seen through an open half door, bright lights, rubber floor and a low plastic play ramp. The dog steps in beside the staff member, sniffing the floor, while two calm dogs, a beagle and a boxer, sniff her from a polite distance. Sound: echoing barks, paws on rubber floor, staff saying "easy, nice and slow". 15-20s (Pickup time): Daycare lobby, late afternoon, outside light dimmer through the front windows. The staff member walks the dog out from the back hallway. She spots the owner and pulls forward, wiggling her whole body and whining, tail sweeping side to side. Sound: happy whining, staff laughing "she did great", owner says "hi baby". 20-25s (Tired ride home): Back seat of a car, early evening, grey light through the windows, a dog blanket on the seat. The dog lies stretched across the blanket with her eyes half closed, her chin resting on the seat edge, breathing slowly as the car moves. Sound: engine hum, turn signal clicking, a deep tired sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Arriving

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Doggy daycare lobby, early morning, bright overhead lights, rubber flooring and a front desk with a leash rack. The dog stands beside the owner's legs on a leash, sniffing the air with ears up and turning her head toward distant barking. Sound: distant dogs barking, a bell on the door, owner says "big day today".

Clip 2 | 5-10s | Meeting the staff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
