Puppy's First Night Home

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Her very first night in her new home: sniffing the living room, checking out her crate, eating her first dinner, a little whining at bedtime and finally falling asleep.

TIMELINE

0-5s	Exploring living room
5-10s	Checking the crate
10-15s	First dinner
15-20s	Bedtime whining
20-25s	Finally asleep

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old female German Shepherd puppy, black and red-tan with fluffy fur, oversized paws and floppy ears that are just starting to stand, wearing a small red collar. 0-5s (Exploring living room): Living room, early evening, ordinary ceiling light and a floor lamp, wooden floor with a striped rug. The puppy walks slowly across the rug with her nose down, sniffing the leg of the couch, then a pair of slippers, her small tail held low and wagging a little as she looks around the new room. Sound: quiet TV murmur in another room, soft sniffing, owner whispering "welcome home". 5-10s (Checking the crate): Corner of the living room, evening, ordinary lamp light, wire crate with the door open and a fluffy grey blanket inside. The puppy steps halfway into the crate, sniffs the blanket and a small plush lamb, then backs out and looks up at the camera with her floppy ears tilted. Sound: crate wire rattling softly, blanket rustling, owner says "that's your bed". 10-15s (First dinner): Kitchen, evening, ordinary overhead light, light grey tile floor. A small pink bowl of soaked puppy kibble sits on a towel. The puppy eats eagerly, her whole face in the bowl, little tail wagging, and pushes the bowl a few inches across the floor as she chases the last pieces. Sound: bowl sliding on tile, small crunches and slurps, owner says "good girl". 15-20s (Bedtime whining): Dim living room at night, only a small table lamp on, crate in the corner with its door closed. The puppy sits inside on the grey blanket, presses her nose to the wire door and gives a few small whines, looking toward the camera with her head tilted and ears drooping. Sound: soft puppy whines, ticking wall clock, owner whispering "I'm right here". 20-25s (Finally asleep): Same dim living room at night, small table lamp. Camera is low on the floor beside the crate. The owner's fingers rest through the wire door and the puppy lies pressed against them, curled on the blanket with her chin on the plush lamb, eyes slowly closing as her breathing settles. Sound: quiet night, soft puppy breathing, a tiny sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Exploring living room

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old female German Shepherd puppy, black and red-tan with fluffy fur, oversized paws and floppy ears that are just starting to stand, wearing a small red collar. Living room, early evening, ordinary ceiling light and a floor lamp, wooden floor with a striped rug. The puppy walks slowly across the rug with her nose down, sniffing the leg of the couch, then a pair of slippers, her small tail held low and wagging a little as she looks around the new room. Sound: quiet TV murmur in another room, soft sniffing, owner whispering "welcome home".

Clip 2 | 5-10s | Checking the crate

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
