The Teenage Phase - Six Months Old

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Life with a six month old shepherd: stealing a shoe, selective hearing in the yard, tripping over her own long legs, chewing a stick and trying to fit on a small dog bed.

TIMELINE

0-5s	Shoe thief
5-10s	Selective hearing
10-15s	Tripping over legs
15-20s	Chewing a stick
20-25s	Too-small bed

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 6-month-old female German Shepherd, lanky with long legs and oversized ears, one ear still slightly floppy, black and red-tan coat, wearing a faded red nylon collar. 0-5s (Shoe thief): Entryway, morning daylight through a small window, wooden floor with shoes by the door. The dog grabs a black sneaker by the heel, glances at the camera and takes off down the hallway with it, her long legs a little out of sync and her floppy ear bouncing. Sound: claws on wood, owner says "hey, bring that back". 5-10s (Selective hearing): Backyard, cloudy midday, patchy grass and a wooden fence. The dog sniffs along the fence line. The owner calls her twice, she lifts her head, looks right at the camera, then goes back to sniffing, before finally trotting over in no hurry with her tail wagging. Sound: owner calling "come" twice, birds, owner sighing and laughing. 10-15s (Tripping over legs): Same backyard, cloudy midday, patchy grass. The dog sprints after a red ball, tries to turn quickly, her long back legs slide out and she stumbles onto her shoulder in the grass, then springs up and keeps running as if nothing happened, one ear flopping over. Sound: thump on grass, panting, owner laughing "so graceful". 15-20s (Chewing a stick): Back patio, cloudy afternoon, grey paving stones with a few fallen leaves. The dog lies with a thick fallen branch between her front paws, gnawing the end, bark pieces scattered around her. She looks up at the camera, then goes right back to chewing. Sound: wood crunching, leaves rustling, owner says "that's your new hobby?". 20-25s (Too-small bed): Living room, evening, ordinary lamp light, wooden floor. The dog steps into the small round puppy bed she used to fit in, turns twice and lies down with her long legs and tail hanging over the sides, her head resting on the floor. She sighs and looks at the camera. Sound: bed squishing, big sigh, owner says "you need a bigger bed".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Shoe thief

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 6-month-old female German Shepherd, lanky with long legs and oversized ears, one ear still slightly floppy, black and red-tan coat, wearing a faded red nylon collar. Entryway, morning daylight through a small window, wooden floor with shoes by the door. The dog grabs a black sneaker by the heel, glances at the camera and takes off down the hallway with it, her long legs a little out of sync and her floppy ear bouncing. Sound: claws on wood, owner says "hey, bring that back".

Clip 2 | 5-10s | Selective hearing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
