MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Birthday bandana): Bedroom, morning, soft daylight through half-open curtains. The dog sits on the carpet beside the bed wearing a simple blue cotton bandana tied around her collar. She wags her tail, sweeps it across the carpet and stretches forward to lick the owner's hand. Sound: tail thumping, owner says "happy birthday, girl". 5-10s (Opening present): Living room, mid morning, natural window light, wooden floor. A loosely wrapped present in brown paper lies on the floor. The dog noses it, grabs a corner of the paper and pulls it open, revealing a new plush fox toy, which she picks up and carries away proudly. Sound: paper tearing, toy squeak, kids cheering in the background. 10-15s (Dog-safe cake): Kitchen, midday, natural daylight, beige tile floor. The owner's hands set down a small plate with a little dog-safe cake made from pumpkin and oats, topped with plain yogurt, no candles. The dog waits in a sit, nose twitching, until the owner says okay, then starts licking the top. Sound: plate on tile, owner says "okay, go ahead", happy laughter. 15-20s (Birthday walk): Park path, sunny afternoon, tall trees and a green lawn on both sides, a few people far in the background. The dog walks ahead on a loose red leash in her blue bandana, stops to sniff a tree trunk, then looks back at the camera with her mouth open. Sound: birds, footsteps on gravel, distant kids playing. 20-25s (Evening nap): Living room couch, evening, ordinary lamp light, grey couch with a plaid blanket. The dog lies stretched out with her new plush fox tucked under her chin, bandana a little crooked. Her eyes close slowly and her tail gives one last lazy wag as the owner's hand pats her side. Sound: quiet TV in the background, a big contented sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
