Her Zoomies Track Around the Yard

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

She has worn her own racetrack into the lawn: laps around the yard, a tight turn at the tree, a pass by the patio, a stop to check on the kids and a happy flop at the end.

TIMELINE

0-5s	The worn track
5-10s	Tree corner turn
10-15s	Patio pass
15-20s	Checking the kids
20-25s	Happy flop

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (The worn track): Backyard, late afternoon, overcast light, green lawn with a clear oval path of worn dirt running along the fence. The dog stands at the start of the path, crouches with her front legs low, then explodes into a run along her track, dirt flicking up behind her paws. Sound: paws thudding, owner says "here she goes". 5-10s (Tree corner turn): Back corner of the same yard, overcast late afternoon, a small maple tree beside the worn dirt path. The dog races toward the tree, leans into the turn so close her shoulder nearly brushes the trunk, and comes out of the corner at full speed, ears pinned back. Sound: fast panting, leaves rustling, distant dog barking. 10-15s (Patio pass): Edge of a concrete patio, overcast late afternoon, two plastic chairs and a potted plant. Camera is at chair height. The dog flies past the patio along her worn path, close enough that the plant leaves sway, tail stretched out behind her, then she disappears out of frame. Sound: a whoosh of paws, owner laughing "lap two". 15-20s (Checking the kids): Middle of the yard, overcast late afternoon, patchy lawn. Two kids sit on the grass cheering. The dog slows down, trots over to them, sniffs one kid's hair, gets a quick pat on the back, then spins around and sprints back onto her track. Sound: kids cheering and giggling, panting, collar jingling. 20-25s (Happy flop): Shady spot under the maple tree, late afternoon, overcast light, cool grass. The dog drops onto her side in the grass, tongue hanging out, sides heaving, and rolls half onto her back, wiggling happily, before resting her head on the ground. Sound: heavy panting, grass rustling, owner says "done already?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The worn track

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Backyard, late afternoon, overcast light, green lawn with a clear oval path of worn dirt running along the fence. The dog stands at the start of the path, crouches with her front legs low, then explodes into a run along her track, dirt flicking up behind her paws. Sound: paws thudding, owner says "here she goes".

Clip 2 | 5-10s | Tree corner turn

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Back corner of the same yard, overcast late afternoon, a small maple tree beside the worn dirt path. The dog races toward the tree, leans into the turn so close her shoulder nearly brushes the trunk, and comes out of the corner at full speed, ears pinned back. Sound: fast panting, leaves rustling, distant dog barking.

Clip 3 | 10-15s | Patio pass

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
