Sliding on the Wooden Floor

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Wood floors versus one excited shepherd: sliding after a ball, skidding around a corner, trying to brake at the door, the new runner rug and a safe nap on it.

TIMELINE

0-5s	Ball slide
5-10s	Corner skid
10-15s	Door brakes
15-20s	New runner rug
20-25s	Rug nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Ball slide): Long hallway, afternoon, soft daylight from a window at the far end, shiny honey colored wooden floor. The owner rolls a tennis ball down the hall, the dog chases it, tries to stop when she reaches it and slides past the ball with her legs splayed, then turns back for it. Sound: claws scrabbling on wood, owner laughing. 5-10s (Corner skid): Corner between the hallway and the kitchen, afternoon, natural daylight, wooden floor meeting beige tiles. The dog runs around the corner carrying the ball, her back end swings out wide, paws paddling fast on the slick floor before she gets her grip and keeps going. Sound: frantic claw clicks, owner says "careful". 10-15s (Door brakes): Front entryway, late afternoon, light through the door window, wooden floor and a small shoe rack. The doorbell rings and the dog runs toward the door, tries to stop and slides the last bit slowly on her backside, bumping gently into a pile of shoes. Sound: doorbell, scrabbling claws, soft bump, owner laughing. 15-20s (New runner rug): Same long hallway, early evening, ordinary ceiling light, wooden floor. The owner's hands unroll a long grey runner rug down the middle of the hall. The dog sniffs the edge, walks onto it carefully, then trots the full length with steady grip and her tail wagging. Sound: rug unrolling, paws on rug, owner says "better, right?". 20-25s (Rug nap): Same hallway, evening, ordinary ceiling light, grey runner rug on the wooden floor. The dog lies stretched out across the rug with her chin on her paws, eyes half closed. When the camera gets close she thumps her tail twice without lifting her head. Sound: tail thumps on rug, quiet house, a sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
