Lost Her Ball in the Bushes

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A game of fetch goes wrong when the ball rolls into the hedge: searching nose first, digging at the roots, the owner pointing, the big find and a proud trot back.

TIMELINE

0-5s	Ball goes missing
5-10s	Nose-first search
10-15s	Digging at roots
15-20s	Owner points
20-25s	Proud trot back

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Ball goes missing): Backyard, sunny morning, green lawn with a thick hedge along the wooden fence. The owner throws a tennis ball, it bounces once and rolls deep under the hedge. The dog runs to the hedge and stops, looking left and right, ears up. Sound: ball bouncing, rustle of leaves, owner says "oh no". 5-10s (Nose-first search): Base of the green hedge, sunny morning, dappled shade, dry leaves and dirt under the branches. The dog pushes her head deep into the bottom of the hedge, only her shoulders and wagging tail showing, branches shaking as she sniffs around. Sound: loud sniffing, branches rustling, birds. 10-15s (Digging at roots): Same hedge, sunny morning, dirt and leaves under the branches. The dog backs out, lies down and scrapes at the ground under the hedge with both front paws, dry leaves flying behind her, then whines softly and looks back at the camera. Sound: paws scraping dirt, soft whine, owner laughing. 15-20s (Owner points): Same backyard, sunny morning, hedge along the fence. The owner's arm points to a spot further down the hedge. The dog follows the hand, walks over, sniffs, then suddenly dives in headfirst with her tail wagging hard and her back legs digging into the grass for balance. Sound: owner says "over there, look", rustling leaves. 20-25s (Proud trot back): Open lawn in the backyard, sunny morning, a few dry leaves on the grass. The dog backs out of the hedge with the dirty tennis ball in her mouth and a leaf stuck to her ear, then trots proudly to the camera and drops the ball at the owner's feet. Sound: happy panting, ball thud on grass, owner says "you found it!".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Ball goes missing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Backyard, sunny morning, green lawn with a thick hedge along the wooden fence. The owner throws a tennis ball, it bounces once and rolls deep under the hedge. The dog runs to the hedge and stops, looking left and right, ears up. Sound: ball bouncing, rustle of leaves, owner says "oh no".

Clip 2 | 5-10s | Nose-first search

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
