Sneaking a Nap on the Kids' Bed

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

While the kids are at school she sneaks onto their bed: the peek in, the quiet climb up, curling into the stuffed animals, getting caught and a cuddle when the kid gets home.

TIMELINE

0-5s	Peeking in
5-10s	Quiet climb
10-15s	Stuffed animal nest
15-20s	Caught napping
20-25s	Cuddle after school

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Peeking in): Upstairs hallway, late morning, daylight through an open bedroom door, wooden floor. Camera is behind the dog. She stands at the door of the kids' room, looks back over her shoulder at the camera, then slips quietly into the room with her tail low and wagging. Sound: quiet house, soft footsteps, owner whispering "where are you going?". 5-10s (Quiet climb): Kids' bedroom, late morning, soft daylight through a window with blue curtains, single bed with a dinosaur print blanket. The dog puts her front paws on the bed, pauses, then hops up with her back legs and stands carefully on the soft blanket. Sound: bed springs creaking, blanket rustling. 10-15s (Stuffed animal nest): Same kids' bedroom, late morning daylight, dinosaur blanket covered with plush toys. The dog turns in two circles, pushes a plush bear aside with her nose, then flops down among the stuffed animals with her head on the pillow and lets out a long sigh. Sound: soft thump, long sigh, birds outside the window. 15-20s (Caught napping): Same bedroom, early afternoon, daylight from the window. Camera peeks around the door frame. The dog is fast asleep on the pillow, legs stretched out, a plush bear against her back. She opens her eyes, looks at the camera and slowly thumps her tail without getting up. Sound: tail thumping on the blanket, owner whispering "busted". 20-25s (Cuddle after school): Same kids' bedroom, afternoon, natural window daylight. A girl of about eight in a school sweater climbs onto the bed and lies down next to the dog, hugging her neck. The dog rolls slightly toward her and licks her cheek once. Sound: girl giggling, "she was waiting for me", soft panting.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Peeking in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Upstairs hallway, late morning, daylight through an open bedroom door, wooden floor. Camera is behind the dog. She stands at the door of the kids' room, looks back over her shoulder at the camera, then slips quietly into the room with her tail low and wagging. Sound: quiet house, soft footsteps, owner whispering "where are you going?".

Clip 2 | 5-10s | Quiet climb

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
