Frosty Winter Morning Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early frosty walk: crunchy white grass, breath in the cold air, sniffing a frosted fence, inspecting a frozen puddle and warming up by the radiator at home.

TIMELINE

0-5s	Crunchy grass
5-10s	Breath in the air
10-15s	Frosted fence sniff
15-20s	Frozen puddle
20-25s	Warming up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Crunchy grass): Neighborhood park, early winter morning, pale grey sky, grass covered in white frost. The dog trots across the frosty lawn on a red leash, leaving dark paw prints behind her, the grass crunching under her feet as she sniffs the ground. Sound: frosty grass crunching, owner's footsteps, distant car. 5-10s (Breath in the air): Same park, early winter morning, pale grey light, frosty grass. The dog stops and looks up at the camera, panting gently, small clouds of breath puffing from her mouth in the cold air. Her ears turn as a bird calls from the bare trees. Sound: soft panting, one bird calling, owner says "cold, huh?". 10-15s (Frosted fence sniff): Edge of the park, early morning, grey light, an old wooden fence with white frost on the rails. The dog sniffs along the bottom rail, her nose leaving a small wet spot in the frost, then lifts a back leg to scratch her ear and keeps sniffing. Sound: sniffing, collar jingling, quiet morning. 15-20s (Frozen puddle): Gravel path in the park, early morning, grey sky, a shallow puddle frozen over with cloudy ice. The dog stops at the edge, taps the ice carefully with one front paw, tilts her head at the tapping sound, then steps around it. Sound: paw tapping ice, gravel crunching, owner laughing softly. 20-25s (Warming up): Living room at home, morning, soft daylight from a window, wooden floor beside a white radiator. The dog lies on a folded blanket right next to the radiator, eyes half closed, cold paws stretched toward the heat, a few melting frost drops still on her coat. Sound: radiator ticking, kettle boiling in the kitchen, a sleepy sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Crunchy grass

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Neighborhood park, early winter morning, pale grey sky, grass covered in white frost. The dog trots across the frosty lawn on a red leash, leaving dark paw prints behind her, the grass crunching under her feet as she sniffs the ground. Sound: frosty grass crunching, owner's footsteps, distant car.

Clip 2 | 5-10s | Breath in the air

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
