## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Resting by tree): Living room, winter evening, ordinary lamp light plus warm white string lights on a tall tree. The decorations hang only on the upper half, nothing within reach. The dog lies on a red rug in front of the tree, head up, ears relaxed, looking at the twinkling lights. Sound: soft holiday music from another room, crackling fireplace. 5-10s (Sniffing gift): Same living room, evening, ordinary lamp light and lit string lights on the tree. A wrapped box with a big bow sits on the rug. The dog sniffs it all over, tail wagging, then looks up at the camera with her ears forward. Sound: paper crinkling as she noses it, owner says "not yet". 10-15s (Dog-safe chew): Living room, evening, ordinary lamp light. The owner's hand gives the dog a long dog-safe chew. She takes it gently, carries it to the red rug in front of the tree and lies down chewing it between her front paws. Sound: gnawing, fireplace crackling, owner says "merry Christmas, girl". 15-20s (Family couch cuddle): Living room couch, evening, ordinary lamp light and the lit tree in the background. Two adults in sweaters and a kid under a plaid blanket sit on the couch, the dog lies across their feet on the rug, resting her chin on one person's slipper. Sound: family chatting quietly, soft laughter, fireplace crackling. 20-25s (Asleep by the tree): Same living room, late evening, only the string lights on the tree and one small lamp on. The dog sleeps on the red rug, curled up, chew beside her paw, her side rising and falling slowly as the camera moves in a little closer. Sound: quiet room, fire crackling low, soft dog snore.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
