Windy Winter Beach Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An empty winter beach on a windy day: ears flapping in the wind, running on the wet sand, sniffing seaweed, barking at the waves and a towel in the car after.

TIMELINE

0-5s	Ears in the wind
5-10s	Wet sand run
10-15s	Sniffing seaweed
15-20s	Barking at waves
20-25s	Towel in the car

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Ears in the wind): Empty winter beach, grey cloudy afternoon, strong wind, grey sea and pale sand. The dog stands facing into the wind on the sand, her ears pushed back and fur on her neck rippling, eyes squinting a little as she sniffs the salty air. Sound: loud wind on the microphone, crashing waves. 5-10s (Wet sand run): Same beach, grey windy afternoon, wet hard sand near the water line. The dog runs along the edge of the water off leash, paws leaving deep prints and sand flicking up, then loops back toward the camera with her tongue out. Sound: wind gusts, paws slapping wet sand, waves rolling in. 10-15s (Sniffing seaweed): Higher part of the beach, grey windy afternoon, dry sand with a long tangled line of dark seaweed and a few shells. The dog sniffs along the seaweed, nose working hard, and paws at it once before moving on down the beach, her coat ruffled by the wind. Sound: wind, sniffing, distant seagulls. 15-20s (Barking at waves): Water line on the same beach, grey windy afternoon, small foamy waves rushing up the sand. The dog bounces back each time a wave comes in, barks at it, then chases it back out a few steps, staying in the shallow foam. Sound: playful barks, waves crashing, owner laughing "get it!". 20-25s (Towel in the car): Back of a hatchback car in a beach parking lot, late grey afternoon, the trunk open with an old blanket inside. The owner's hands rub the dog's wet, sandy legs with a towel while she sits on the blanket panting and looking toward the sea. Sound: wind outside, towel rubbing, owner says "best walk ever, huh?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Ears in the wind

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Empty winter beach, grey cloudy afternoon, strong wind, grey sea and pale sand. The dog stands facing into the wind on the sand, her ears pushed back and fur on her neck rippling, eyes squinting a little as she sniffs the salty air. Sound: loud wind on the microphone, crashing waves.

Clip 2 | 5-10s | Wet sand run

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
