Her Favorite Things

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A tour of everything she loves: her favorite toy, her favorite window spot, her favorite snack, her favorite walk and her favorite person.

TIMELINE

0-5s	Favorite toy
5-10s	Favorite window
10-15s	Favorite snack
15-20s	Favorite walk
20-25s	Favorite person

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Favorite toy): Living room, morning, natural daylight, wooden floor with a wicker toy basket. The dog digs through the basket with her nose, tosses two toys aside and pulls out a worn green squeaky frog with a missing leg, then trots off with it proudly. Sound: toys tumbling, squeak, owner laughing "always the frog". 5-10s (Favorite window): Front room, late morning, bright daylight through a large window, low cushioned bench under it. The dog lies on the bench with her chin on the window sill, ears up, watching the street outside, her tail swishing when someone walks by. Sound: quiet street sounds, a soft woof, birds. 10-15s (Favorite snack): Kitchen, midday, natural daylight, beige tile floor. The owner's hand holds out a baby carrot. The dog sits fast, takes it gently and crunches it loudly, then stares up at the hand with her ears perked for another one, a small orange crumb stuck to her lip. Sound: loud crunching, owner says "you love carrots, huh?". 15-20s (Favorite walk): Wooded trail, cool afternoon, dappled light through tall trees, dirt path covered with leaves. The dog trots ahead on a long leash, nose down, tail up, and stops at a fallen log to sniff it before looking back at the camera. Sound: leaves crunching, birds, a creek in the distance. 20-25s (Favorite person): Living room couch, evening, ordinary lamp light, plaid blanket. The dog climbs onto the couch, lays her head across the owner's lap and gazes up at the camera, then closes her eyes as the owner's hand slowly strokes her head and the soft fur behind her ears. Sound: quiet room, contented sigh, owner says "and me, right?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Favorite toy

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
