The Day He Found His Forever Home

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His whole adoption day in five moments: meeting us in the calm shelter lobby, leaning on the owner in a quiet meeting room, climbing our porch steps, his first drink at home and his first nap on the couch.

TIMELINE

0-5s	Lobby meeting
5-10s	First lean
10-15s	Up the porch steps
15-20s	First drink at home
20-25s	First couch nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. 0-5s (Lobby meeting): Quiet, clean shelter lobby, bright overhead lights and daylight from a front window, pale grey floor and a wooden bench. A smiling staff member in a plain navy polo shirt leads the dog through a side door on a grey slip leash. He walks toward the camera with his head low, sniffing the floor, then stops a few steps away. Sound: soft voices, a door clicking shut, owner whispering "hi, sweet boy". 5-10s (First lean): Small calm meeting room at the shelter, soft daylight from a high window, a folded fleece blanket on the clean floor. The owner, a woman in her early 30s with dark wavy shoulder-length hair, kneels with her palm open. The dog sniffs her fingers for a long moment, then steps closer and leans his shoulder against her knee, ears still held back. Sound: quiet room, the dog sniffing, owner breathing out a soft laugh. 10-15s (Up the porch steps): Front of a small pale blue house, late afternoon overcast daylight, three wooden porch steps with a potted fern and a worn doormat. The owner's hand holds the slip leash loosely. The dog stops at the bottom step, sniffs the first board, then climbs up carefully one step at a time and pauses at the open front door. Sound: wind in a tree, claws on wood, owner saying "this is it, buddy". 15-20s (First drink at home): Small kitchen with white cabinets and a beige tile floor, late afternoon daylight through the window over the sink. A brand new stainless water bowl sits on a rubber mat. The dog walks over slowly, sniffs the rim, then drinks in long noisy laps, water dripping from his chin onto the tiles. Sound: loud lapping, dripping water, fridge humming. 20-25s (First couch nap): Living room in the evening, warm table lamp light, a grey couch with a plaid blanket spread over one cushion. The dog lies curled up on the blanket, the slip leash taken off. His eyes slowly close while the owner's hand rests on his side, rising and falling with each breath. Sound: quiet house, a long deep sigh, owner whispering "welcome home".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Lobby meeting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. Quiet, clean shelter lobby, bright overhead lights and daylight from a front window, pale grey floor and a wooden bench. FACEBOOK CAPTION

This morning he was a shelter dog.
Tonight he's asleep on my couch. Welcome home, buddy.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
