Leaving the Shelter for Good

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His last minutes at the shelter: goodbye scratches from the staff, a last walk down the hallway, the front doors opening, a sniff of fresh grass outside, and walking to our car.

TIMELINE

0-5s	Goodbye scratches
5-10s	Last hallway walk
10-15s	Doors open
15-20s	Fresh grass
20-25s	Toward the car

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. 0-5s (Goodbye scratches): Clean shelter lobby, bright daylight from big front windows, pale grey floor. Two kind staff members, a woman with a ponytail and an older man with a grey beard, both in plain navy polo shirts, kneel and scratch the dog behind the ears. He stands on his slip leash, tail low but wagging slightly, sniffing their hands. Sound: staff saying "be good, buddy", light laughter. 5-10s (Last hallway walk): Calm shelter corridor, bright overhead light, clean grey floor and plain white walls. The camera follows behind as the owner, a woman in her early 30s with dark wavy shoulder-length hair, walks the dog toward the exit. He stays close to her leg, ears held back, glancing at the doors they pass. Sound: footsteps, claws clicking, a quiet radio somewhere. 10-15s (Doors open): Shelter front entrance, bright overcast daylight outside, glass double doors and a concrete path with neat shrubs. A staff member pushes one door open and holds it. The dog pauses at the threshold with his nose lifted, sniffing the outside air for a moment before stepping through beside the owner's legs. Sound: door swinging, wind, staff member saying "go on, he's all yours". 15-20s (Fresh grass): A strip of green lawn beside the shelter entrance, overcast midday light, a tidy flower bed along the wall. The dog lowers his nose to the grass, sniffs along a few steps, then shakes his whole body from head to tail, his collar jingling, and looks around with his ears a little higher. Sound: wind, birds, collar jingling during the shake. 20-25s (Toward the car): Shelter parking lot, overcast daylight, a few parked cars on clean asphalt. Walking beside the owner's jeans, the dog trots along on his slip leash toward a dark green hatchback with its back door open, his tail now held a little higher and swinging loosely as he goes. Sound: shoes on asphalt, distant traffic, owner saying "let's go home".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Goodbye scratches

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. Clean shelter lobby, bright daylight from big front windows, pale grey floor. Two kind staff members, a woman with a ponytail and an older man with a grey beard, both in plain navy polo shirts, kneel and scratch the dog behind the ears. He stands on his slip leash, tail low but wagging slightly, sniffing their hands. Sound: staff saying "be good, buddy", light laughter.

Clip 2 | 5-10s | Last hallway walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
