Exploring His New Home

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His first tour of the house: sniffing the kitchen, checking every room off the hallway, discovering the backyard, finding his own bed corner and picking the sunniest spot by the window.

TIMELINE

0-5s	Kitchen sniff
5-10s	Hallway rooms
10-15s	Backyard discovery
15-20s	His bed corner
20-25s	Sunny window spot

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. 0-5s (Kitchen sniff): Small kitchen in a modest house, morning daylight through the window over the sink, white cabinets and a beige tile floor. The owner's hand holds the end of the slip leash loosely as the dog walks along the cabinets, sniffing the floor and the base of the fridge, tail low, ears turning toward every sound. Sound: fridge humming, claws on tile, sniffing. 5-10s (Hallway rooms): Narrow hallway with a light wooden floor and three open doors, soft morning daylight coming from the rooms. The dog pokes his head into a bedroom, sniffs the corner of the bed, backs out and moves on to the next doorway, checking each room carefully before going in. Sound: claws on wood, a floorboard creaking, owner saying "that's our room". 10-15s (Backyard discovery): Small fenced backyard, bright sunny noon, uneven green lawn, a wooden fence and a white plastic patio chair. The back door opens and the dog steps down onto the grass, sniffs the air, then trots along the fence with his nose down, his tail lifting a little for the first time. Sound: birds, a lawn mower far away, owner saying "this is all yours". 15-20s (His bed corner): Living room corner, midday daylight, beige carpet and a bookshelf. A new round grey dog bed sits by the wall with a soft blanket in it. The dog sniffs the blanket, paws at it twice to fluff it, then steps in and stands there looking at the camera, unsure. Sound: blanket rustling, owner saying "that one's yours, bud". 20-25s (Sunny window spot): Same living room, afternoon sunlight pouring through a large front window onto the beige carpet. The dog walks into the bright patch of sun under the window, turns once, lies down facing the room and rests his head on his front paws, eyes following the owner. Sound: quiet house, a car passing outside, a soft sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Kitchen sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. Small kitchen in a modest house, morning daylight through the window over the sink, white cabinets and a beige tile floor. The owner's hand holds the end of the slip leash loosely as the dog walks along the cabinets, sniffing the floor and the base of the fridge, tail low, ears turning toward every sound. Sound: fridge humming, claws on tile, sniffing.

Clip 2 | 5-10s | Hallway rooms

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. FACEBOOK CAPTION

He checked every single room twice.
Then he picked the sunniest spot in the house. Smart boy.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
