First Night in a Real Bed

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His first night home: circling the new orthopedic bed, one paw in, lying down stiffly next to the owner on the floor, relaxing under her hand and finally falling fast asleep.

TIMELINE

0-5s	Meeting the bed
5-10s	One paw in
10-15s	Owner on the floor
15-20s	Hand on his back
20-25s	Asleep at last

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. 0-5s (Meeting the bed): Bedroom at night, an ordinary bedside lamp on, cream walls, a brand new thick grey orthopedic dog bed on the wooden floor beside the human bed. The dog walks around the dog bed in a careful circle, sniffing the edges and the cushion without stepping on it, ears half back. Sound: quiet house, sniffing, claws on wood. 5-10s (One paw in): Same bedroom, warm bedside lamp light. The owner's hand pats the cushion of the dog bed. The dog places one front paw on it, presses down, pulls the paw back, then places it again and steps fully onto the cushion, standing there unsure what to do next. Sound: soft patting, owner whispering "it's okay, it's yours". 10-15s (Owner on the floor): Same bedroom at night, lamp light on cream walls. The owner, a woman in her early 30s with dark wavy shoulder-length hair in grey pajamas, sits cross-legged on the floor beside the dog bed. The dog lies down stiffly on the cushion with his head up, watching her, ears half back. Sound: pajamas rustling, quiet breathing. 15-20s (Hand on his back): Close on the grey dog bed in the lamp-lit bedroom. The owner's hand rests on the dog's back and strokes slowly from his neck to his hip. His head sinks onto the cushion, he lets out a long sigh through his nose, and his eyelids start to blink heavily. Sound: a long sigh, soft stroking, clock ticking. 20-25s (Asleep at last): Same bedroom, the lamp now off, only dim light from the hallway through the open door. The dog lies curled tight on the grey dog bed with his nose tucked beside his tail, fast asleep, his side rising and falling, one front paw twitching once. Sound: slow deep breathing, a tiny dream woof, owner whispering "night, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Meeting the bed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. Bedroom at night, an ordinary bedside lamp on, cream walls, a brand new thick grey orthopedic dog bed on the wooden floor beside the human bed. The dog walks around the dog bed in a careful circle, sniffing the edges and the cushion without stepping on it, ears half back. Sound: quiet house, sniffing, claws on wood.

Clip 2 | 5-10s | One paw in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
