Learning to Trust Again

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Small trust-building moments in his first weeks: treats tossed from a distance, the owner sitting quietly with her back to him, him approaching on his own, a first touch on the head, and following her into the kitchen.

TIMELINE

0-5s	Tossed treat
5-10s	Sitting nearby
10-15s	His own approach
15-20s	First head touch
20-25s	Following her

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. 0-5s (Tossed treat): Living room in the afternoon, soft daylight through sheer curtains, beige carpet. The dog lies in the far corner on a folded blanket, watching. The owner's hand gently tosses a small treat that lands near his paws. He sniffs it, eats it and looks back at the camera, ears held back. Sound: soft thud of the treat, quiet chewing, owner whispering "good boy". 5-10s (Sitting nearby): Same living room, afternoon daylight through the sheer curtains. The owner, a woman in her early 30s with dark wavy shoulder-length hair, sits on the carpet a few feet from the dog with her back half turned, sipping from a white mug. The dog lifts his head and watches her, ears slowly rising. Sound: a mug set down, clock ticking, birds outside. 10-15s (His own approach): Same living room, soft afternoon light, beige carpet. The dog stands up from his blanket, walks over one hesitant step at a time and stops beside the owner, a woman with dark wavy hair sitting very still. He sniffs her hair and her shoulder carefully, tail low and still. Sound: quiet steps on carpet, sniffing, owner holding her breath. 15-20s (First head touch): Close shot in the living room, afternoon daylight. The owner slowly raises her hand under the dog's chin, then strokes the top of his head once. He flinches slightly, then stays, his eyes half closing as he leans a little into her palm. Sound: owner whispering "there you go", the dog's soft exhale. 20-25s (Following her): Kitchen doorway in the early evening, ordinary ceiling light, beige tile floor. The owner walks from the living room into the kitchen, filming back over her shoulder. The dog gets up and follows a few steps behind her, tail low but loose, stopping when she stops. Sound: footsteps, claws on tile, owner saying "you coming?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Tossed treat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. Living room in the afternoon, soft daylight through sheer curtains, beige carpet. The dog lies in the far corner on a folded blanket, watching. The owner's hand gently tosses a small treat that lands near his paws. He sniffs it, eats it and looks back at the camera, ears held back. Sound: soft thud of the treat, quiet chewing, owner whispering "good boy".

Clip 2 | 5-10s | Sitting nearby

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
