The First Toy He Ever Owned

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Giving him his very first toy on a rainy afternoon: a plush hedgehog set down near him, the startling squeak, a careful sniff, carrying it to his blanket, and sleeping on it at night.

TIMELINE

0-5s	Toy on the floor
5-10s	The squeak
10-15s	Careful sniff
15-20s	Carrying it away
20-25s	Sleeping with it

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. 0-5s (Toy on the floor): Living room on a rainy afternoon, grey daylight from the window, raindrops running down the glass, beige carpet. The owner's hand sets a small brown plush hedgehog toy on the carpet in front of the dog, who lies on his blanket and stares at it, ears pointing forward. Sound: rain on the window, owner saying "this is for you". 5-10s (The squeak): Same rainy living room, grey window light. The owner's hand squeezes the hedgehog once and it squeaks. The dog jumps back half a step with his ears flattening, then freezes and stares at the toy, tilting his head to one side. Sound: a loud squeak, rain, owner laughing softly. 10-15s (Careful sniff): Close on the carpet in the rainy grey daylight. The dog stretches his neck out and sniffs the hedgehog, then nudges it with his nose. It gives a small squeak and he jerks back, but his tail wags a little and he leans in again. Sound: a small squeak, sniffing, rain tapping the glass. 15-20s (Carrying it away): Same living room, grey rainy light, beige carpet. The dog picks up the hedgehog gently in his front teeth and carries it across the room to his blanket beside the couch, where he lays it down carefully and sniffs it again. Sound: muffled squeaks, soft paws on carpet, owner whispering "he took it". 20-25s (Sleeping with it): Same living room in the evening, a table lamp on, rain still streaking the dark window. The dog is asleep curled up on his blanket beside the couch, his chin resting right on top of the plush hedgehog, one paw draped over it. Sound: rain, slow breathing, a quiet squeak as he shifts.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Toy on the floor

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. Living room on a rainy afternoon, grey daylight from the window, raindrops running down the glass, beige carpet. The owner's hand sets a small brown plush hedgehog toy on the carpet in front of the dog, who lies on his blanket and stares at it, ears pointing forward. Sound: rain on the window, owner saying "this is for you".

Clip 2 | 5-10s | The squeak

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
