Learning How to Play

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He had never played before: watching a rope toy wiggle, his first play bow, a gentle tug, chasing a rolling ball and his very first zoomies around the backyard.

TIMELINE

0-5s	Wiggling rope
5-10s	First play bow
10-15s	Gentle tug
15-20s	Chasing the ball
20-25s	First zoomies

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. 0-5s (Wiggling rope): Backyard on a breezy spring morning, cool natural daylight, patchy green grass and a wooden fence. The owner's hand drags a blue and white rope toy slowly across the grass in front of the dog. He watches it closely, head following it, then takes one step toward it. Sound: wind, birds, rope swishing on grass. 5-10s (First play bow): Same backyard, breezy morning daylight. The owner, a woman in her early 30s with dark wavy shoulder-length hair, crouches and pats the grass with both hands. The dog drops his chest low into a quick play bow, rear end up, tail swishing, then springs back up. Sound: owner laughing "was that a play bow?", birds. 10-15s (Gentle tug): Same backyard, cool spring daylight, patchy grass. The dog grabs one end of the rope toy and the owner's hand pulls lightly on the other end. He holds on and tugs back with small head shakes, his ears perked forward. Sound: a soft play growl, rope creaking, owner saying "good boy!". 15-20s (Chasing the ball): Same fenced backyard, morning daylight, breeze moving the grass. The owner's hand rolls a red rubber ball across the lawn. The dog bounds after it, runs past it, turns around and pounces on it with both front paws, then picks it up and trots a proud little circle with it. Sound: ball bouncing, quick paws on grass, owner cheering. 20-25s (First zoomies): Same backyard, cool spring daylight, wooden fence. The dog suddenly runs a fast loose loop around the yard with his back end tucked low and ears flopping, then skids to a stop right in front of the camera, panting with his mouth open. Sound: thudding paws, heavy panting, owner laughing "zoomies!".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Wiggling rope

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. Backyard on a breezy spring morning, cool natural daylight, patchy green grass and a wooden fence. The owner's hand drags a blue and white rope toy slowly across the grass in front of the dog. He watches it closely, head following it, then takes one step toward it. Sound: wind, birds, rope swishing on grass.

Clip 2 | 5-10s | First play bow

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. The dog suddenly runs a fast loose loop around the yard with his back end tucked low and ears flopping, then skids to a stop right in front of the camera, panting with his mouth open. Sound: thudding paws, heavy panting, owner laughing "zoomies!".

FACEBOOK CAPTION

Nobody ever taught him how to play.
He figured out zoomies all on his own though.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
