Healthy, Happy and Shiny

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A few months after the shelter he is a different dog: his healthy coat in the morning sun, a brushing session, a hungry breakfast, a strong jog in the park and a proud sit on the lawn.

TIMELINE

0-5s	Morning shake
5-10s	Brushing session
10-15s	Hungry breakfast
15-20s	Strong jog
20-25s	Proud sit

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Morning shake): Back porch on a clear sunny morning, natural daylight, painted grey boards and a potted plant. The dog stands at the top of the steps and shakes off from head to tail, his thick, healthy wolf-grey coat catching the sunlight and settling neatly back into place. Sound: collar jingling during the shake, birds, owner saying "look at that coat". 5-10s (Brushing session): Same sunny back porch, morning light. The owner's hand runs a rubber grooming brush along the dog's back while he stands on the boards. A little loose grey undercoat comes away and drifts in the breeze, and the dog leans into the brush with his eyes half closed. Sound: brush strokes, a happy groan, wind. 10-15s (Hungry breakfast): Kitchen, bright morning daylight through the window, beige tile floor. The owner's hand sets down a steel bowl of kibble. The dog dives in right away, eating eagerly with his tail wagging, then licks the empty bowl across the tiles. Sound: crunching, the bowl scraping on tile, tags clinking. 15-20s (Strong jog): Quiet park path on a sunny late morning, green lawns and tall oak trees on both sides. The owner, a woman in her early 30s with dark wavy shoulder-length hair in a ponytail, jogs while the dog trots beside her on a leash, tail high, muscles moving under his coat. Sound: steady footsteps, panting, birds, distant kids playing. 20-25s (Proud sit): Front lawn of a white house, sunny afternoon, short green grass and a flower bed. The dog sits upright on the grass with his chest full and ears tall, looks straight at the camera and pants with his tongue out, tail sweeping the grass. Sound: panting, a sprinkler ticking next door, owner saying "so handsome".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
