His First Bath at Home

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His first bath in our home: coaxed into the tub with a treat, warm water over his back, a gentle shampoo, a huge shake and a towel rub that turns into tail wags.

TIMELINE

0-5s	Into the tub
5-10s	Warm water
10-15s	Gentle shampoo
15-20s	The big shake
20-25s	Towel rub

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd who was just rescued from a shelter: a little thin with a dull, slightly patchy wolf-grey coat, cautious eyes, ears sometimes held back, wearing a plain grey slip leash and a new dark red leather collar. 0-5s (Into the tub): Small bathroom, bright ceiling light and daylight from a frosted window, white tiles and a white bathtub with a rubber mat inside. The dog stands beside the tub, hesitating. The owner's hand holds a treat over the tub, and he carefully steps in with his front legs, then his back legs. Sound: claws on porcelain, owner saying "you can do it". 5-10s (Warm water): Same bathroom, bright ceiling light. The owner's hand runs gentle warm water from a handheld shower head over the dog's back. His coat darkens as it soaks, and he stands a little stiff with his ears back, watching the water swirl around his paws. Sound: running water, splashing, owner saying "nice and warm". 10-15s (Gentle shampoo): Same white bathroom, bright light. The owner, a woman in her early 30s with dark wavy shoulder-length hair in an old T-shirt, kneels beside the tub and massages white foam into the dog's neck and shoulders. He slowly relaxes and leans his weight against her arm. Sound: soft scrubbing, water dripping, a long sigh. 15-20s (The big shake): Same bathroom, bright ceiling light, white tiles. Rinsed and dripping, the dog plants his feet in the tub and shakes hard from head to tail. Water sprays across the tiles and toward the camera as the owner turns away laughing. Sound: spraying water, owner shrieking and laughing. 20-25s (Towel rub): Same bathroom, the dog now standing on a fluffy bathmat on the tile floor. The owner's hands rub him all over with a big blue towel. His tail wags under the towel and he pushes his head into it, eyes squinting happily. Sound: towel rubbing, tail thumping the tub, owner saying "all clean".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

First bath at home. He was nervous, then he leaned right into it.
I was wetter than he was.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
