He Finally Sleeps on His Back

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The ultimate sign he feels safe: belly-up on the couch, dream paw twitches, a long stretch without waking, loud snoring, and refusing to give the owner her spot back.

TIMELINE

0-5s	Belly up
5-10s	Dream twitches
10-15s	Big stretch
15-20s	Snoring
20-25s	Not moving

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Belly up): Living room on a lazy Sunday afternoon, soft daylight through half-open blinds, a grey couch with throw pillows. The dog lies fully on his back across two cushions, all four legs loosely in the air, head tipped to one side, lips flopped open, sound asleep. Sound: soft snoring, clock ticking, owner whispering "oh my gosh". 5-10s (Dream twitches): Close on the dog on the same grey couch, soft afternoon light through the blinds. Still on his back and asleep, his front paws twitch in the air and his lips puff out with small muffled woofs as he dreams. Sound: tiny muffled woofs, owner giggling quietly. 10-15s (Big stretch): Same living room, afternoon daylight. Without waking, the dog stretches all four legs out long, toes spreading wide and his back arching against the cushions, then curls his legs back up and keeps sleeping belly-up, one ear flopped inside out against the cushion. Sound: a long groan, couch creaking. 15-20s (Snoring): Same couch, soft daylight through the blinds. The partner, a man in his early 30s with glasses and short hair, sits on the armrest holding back a laugh while the dog snores loudly on his back, his belly rising and falling. Sound: loud snoring, partner whispering "he sounds like a tractor". 20-25s (Not moving): Same living room, afternoon light. The owner's hand gently pats the edge of the couch next to the dog, asking for her spot. He opens one eye, looks at the camera, lets out a deep sigh and stays right where he is on his back. Sound: a big sigh, owner laughing "fine, it's your couch".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Belly up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Living room on a lazy Sunday afternoon, soft daylight through half-open blinds, a grey couch with throw pillows. The dog lies fully on his back across two cushions, all four legs loosely in the air, head tipped to one side, lips flopped open, sound asleep. Sound: soft snoring, clock ticking, owner whispering "oh my gosh".

Clip 2 | 5-10s | Dream twitches

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Close on the dog on the same grey couch, soft afternoon light through the blinds. Still on his back and asleep, his front paws twitch in the air and his lips puff out with small muffled woofs as he dreams. Sound: tiny muffled woofs, owner giggling quietly.

Clip 3 | 10-15s | Big stretch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Same living room, afternoon daylight. Without waking, the dog stretches all four legs out long, toes spreading wide and his back arching against the cushions, then curls his legs back up and keeps sleeping belly-up, one ear flopped inside out against the cushion. Sound: a long groan, couch creaking.

Clip 4 | 15-20s | Snoring

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Same couch, soft daylight through the blinds. The partner, a man in his early 30s with glasses and short hair, sits on the armrest holding back a laugh while the dog snores loudly on his back, his belly rising and falling. Sound: loud snoring, partner whispering "he sounds like a tractor".

Clip 5 | 20-25s | Not moving

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Same living room, afternoon light. The owner's hand gently pats the edge of the couch next to the dog, asking for her spot. He opens one eye, looks at the camera, lets out a deep sigh and stays right where he is on his back. Sound: a big sigh, owner laughing "fine, it's your couch".

FACEBOOK CAPTION

When a rescue sleeps on his back, it means he feels safe.
It also means the couch is his now.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
