His First Belly Rub

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The first time he rolled over and asked for it: flopping down on the rug, a careful first rub, a happy wiggle, the leg kick and a paw on the wrist asking for more.

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Roll over): Living room in the evening, warm floor lamp light, a round woven rug on a wooden floor. The dog walks up to the owner sitting on the rug, flops down beside her and rolls onto his back, front paws curled, looking at her upside down. Sound: a soft thud, owner whispering "is that for me?". 5-10s (Careful first rub): Same living room, warm lamp light, woven rug. The owner's hand reaches in slowly and gently rubs the dog's chest and belly. He holds very still, his eyes following her hand, then his body softens against the rug and his tail gives a slow wag. Sound: soft rubbing, quiet room, owner breathing out a happy laugh. 10-15s (Happy wiggle): Close on the rug in the warm evening lamp light. Still on his back, the dog wiggles from side to side, mouth open and relaxed, his tail sweeping across the rug as the owner keeps rubbing his belly with slow circles. Sound: tail swishing on the rug, happy grunts. 15-20s (Leg kick): Same living room, floor lamp light. The owner's fingers find the spot on the side of his belly, and the dog's back leg starts kicking in the air on its own while he lies there with his eyes half closed. Sound: owner laughing "found it!", the rug rustling. 20-25s (More please): Same rug, warm lamp light. The owner, a woman in her early 30s with dark wavy shoulder-length hair, pulls her hand away. The dog stays on his back and paws at her wrist with one front paw, pulling her hand back toward his belly. Sound: owner laughing "okay, one more", soft panting.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
