One Week Home

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Snapshots from his first full week: a dewy morning yard break, waiting politely for breakfast, napping under the owner's desk, a short dusk walk and choosing the foot of the bed.

TIMELINE

0-5s	Morning yard break
5-10s	Waiting for breakfast
10-15s	Desk nap
15-20s	Dusk walk
20-25s	Foot of the bed

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Morning yard break): Backyard just after sunrise, cool pale daylight, dewy grass and a wooden fence. The back door opens and the dog steps out, sniffs the wet grass and walks the path along the fence he has already learned, glancing back at the house. Sound: birds, wet grass swishing, a screen door closing. 5-10s (Waiting for breakfast): Kitchen, morning daylight through the window, beige tile floor. The dog sits calmly beside his empty steel bowl, watching the owner's hand scoop kibble from a bin. He waits, tail sweeping the tiles, until the bowl is set down and the owner says okay. Sound: kibble rattling, tail swishing on tile, owner saying "good wait". 10-15s (Desk nap): Small home office, midday daylight through blinds, the laptop screen facing away from the camera. The dog naps on a rug under the desk while the owner works, her foot in a grey sock resting gently on his side as he breathes slowly. Sound: keyboard typing, slow breathing, a soft snore. 15-20s (Dusk walk): Quiet residential street at dusk, streetlights just coming on, blue evening sky. The owner, a woman in her early 30s with dark wavy shoulder-length hair, walks the dog on a leash, and he stops to sniff a wooden mailbox post, tail wagging. Sound: crickets, footsteps, a car passing far away. 20-25s (Foot of the bed): Bedroom at night, bedside lamp on, white duvet. The dog lies on a folded blanket at the foot of the bed, looks up at the camera with sleepy eyes, lets out a sigh and lays his head down on his paws. Sound: a long sigh, quiet room, owner whispering "one week, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Morning yard break

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Backyard just after sunrise, cool pale daylight, dewy grass and a wooden fence. The back door opens and the dog steps out, sniffs the wet grass and walks the path along the fence he has already learned, glancing back at the house. Sound: birds, wet grass swishing, a screen door closing.

Clip 2 | 5-10s | Waiting for breakfast

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
