One Month Home

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

One month in and his personality is out: greeting the partner at the door, stealing the owner's warm couch spot, playing tug, rolling in the grass and politely begging at dinner.

TIMELINE

0-5s	Greeting the partner
5-10s	Stealing the spot
10-15s	Hallway tug
15-20s	Grass roll
20-25s	Polite dinner beg

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Greeting the partner): Front hallway in the early evening, daylight from the opening door, wooden floor and shoes by the wall. The partner, a man in his early 30s with glasses and short hair, steps inside with a backpack. The dog trots up wagging and leans his whole body against the man's legs. Sound: door opening, tags jingling, partner saying "hey, buddy!". 5-10s (Stealing the spot): Living room in the evening, warm lamp light, grey couch. The owner stands up from the couch, and the dog immediately hops up into her warm spot, circles once and lies down, looking at the camera with innocent eyes while she stands there holding her mug. Sound: couch creaking, owner laughing "seriously?". 10-15s (Hallway tug): Hallway with a wooden floor, evening ceiling light. The dog pulls on a thick rope toy while the owner's hand holds the other end. He shakes his head and leans back on his hips, tail wagging hard, his paws sliding a little on the smooth floorboards. Sound: playful growling, rope creaking, owner saying "you're strong". 15-20s (Grass roll): Backyard on a sunny late afternoon, green grass and a wooden fence. The dog drops onto his back and rolls side to side in the grass, legs kicking in the air, then flips over and sneezes, then shakes the grass bits off his coat. Sound: grass rustling, a loud sneeze, birds. 20-25s (Polite dinner beg): Dining area in the evening, ordinary ceiling light, a wooden table with plates. The dog sits beside the owner's chair and rests his chin on her knee, his eyes going from the camera to the table and back, perfectly patient and very hopeful. Sound: forks on plates, a soft whine, partner saying "don't look at him".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Greeting the partner

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Front hallway in the early evening, daylight from the opening door, wooden floor and shoes by the wall. The partner, a man in his early 30s with glasses and short hair, steps inside with a backpack. The dog trots up wagging and leans his whole body against the man's legs. Sound: door opening, tags jingling, partner saying "hey, buddy!".

Clip 2 | 5-10s | Stealing the spot

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Living room in the evening, warm lamp light, grey couch. The owner stands up from the couch, and the dog immediately hops up into her warm spot, circles once and lies down, looking at the camera with innocent eyes while she stands there holding her mug. Sound: couch creaking, owner laughing "seriously?".

Clip 3 | 10-15s | Hallway tug

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
