Six Months Home

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Six months home and he's a confident adventure buddy: a relaxed car ride to the trail, leading the way on a forest hike, a water break, fetch in the park and a cozy evening with the partner.

TIMELINE

0-5s	Relaxed car ride
5-10s	Leading the hike
10-15s	Water break
15-20s	Park fetch
20-25s	Cozy evening

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Relaxed car ride): Back seat of a dark green hatchback on a sunny morning, daylight through the windows. The dog wears a black padded car harness clipped to the seat belt and lies stretched out on a blanket, chin resting on the center armrest, eyes half closed. Sound: engine hum, light music low on the radio, slow breathing. 5-10s (Leading the hike): Forest dirt trail on a mild afternoon, dappled natural light through tall pine trees, ferns along the edges. The dog walks ahead on a long leash, nose to the ferns, tail high, looking back at the camera at a bend in the trail. Sound: crunching pine needles, birds, wind in the trees. 10-15s (Water break): Same forest trail, a flat rock in the shade, dappled daylight. The owner, a woman in her early 30s with dark wavy shoulder-length hair, pours water from a bottle into a collapsible bowl. The dog drinks noisily, water dripping from his chin. Sound: water pouring, lapping, birds. 15-20s (Park fetch): Open park field on a clear late afternoon, short green grass and a line of trees far off. The owner's hand throws a tennis ball, and the dog sprints after it, scoops it up and runs back to drop it at the camera. Sound: ball thudding, paws pounding grass, owner cheering. 20-25s (Cozy evening): Living room in the evening, warm lamp light, grey couch. The partner, a man in his early 30s with glasses and short hair, sits watching TV with the screen out of view, and the dog lies beside him with his head resting on his lap. Sound: faint TV voices, a contented sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Relaxed car ride

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Back seat of a dark green hatchback on a sunny morning, daylight through the windows. The dog wears a black padded car harness clipped to the seat belt and lies stretched out on a blanket, chin resting on the center armrest, eyes half closed. Sound: engine hum, light music low on the radio, slow breathing.

Clip 2 | 5-10s | Leading the hike

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
