## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Wake-up nudge): Bedroom in the morning, soft daylight through white curtains. Point of view from the bed. The dog rests his chin on the edge of the mattress, tail thumping against the nightstand, then nudges the owner's hand with his nose and huffs softly. Sound: tail thumping, owner saying sleepily "happy gotcha day". 5-10s (Dog-safe cake): Back porch on a sunny afternoon, natural daylight, wooden boards. The owner's hand sets down a small homemade dog cake of plain pumpkin and plain yogurt in a steel bowl, no candles. The dog sniffs it politely, licks the top, then eats eagerly. Sound: happy licking, birds, owner and partner laughing. 10-15s (Family moment): Same sunny porch steps. The owner, a woman in her early 30s with dark wavy shoulder-length hair, and her partner, a man in his early 30s with glasses and short hair, sit clapping softly as the dog walks between them wagging, yogurt on his nose. Sound: soft clapping, partner saying "one whole year". 15-20s (New toy): Backyard, sunny afternoon, green lawn and wooden fence. The dog trots around the yard carrying a new yellow plush duck toy in his mouth, squeaking it with every few steps, tail held high, prancing past the camera twice to make sure everyone sees. Sound: rhythmic squeaking, birds, owner laughing. 20-25s (Evening cuddle): Living room in the evening, warm lamp light, grey couch. The dog lies stretched across both the owner's and the partner's laps on the couch, the yellow duck toy tucked under his chin, eyes closing as both of their hands rest on his back. Sound: quiet room, a deep sigh, owner whispering "best decision ever".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
