MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Middle of the bed): Bedroom in the morning, grey daylight through curtains, white duvet. The dog lies stretched across the middle of the bed with his head on the owner's pillow. The partner, a man in his early 30s with glasses and short hair, is squeezed onto the edge, laughing. Sound: a big yawn, partner saying "I live here too, you know". 5-10s (Toy basket): Living room, mid-morning daylight, beige carpet. A wicker basket overflows with plush toys. The dog shoves his head in, pulls out a toy, drops it on the carpet, then digs back in for a different one, tail wagging as he decides. Sound: squeaks, toys thumping on carpet, owner laughing. 10-15s (Fancy breakfast): Kitchen, bright morning light, beige tile floor. The owner's hand sprinkles plain shredded cooked chicken on top of a bowl of kibble. The dog sits waiting, drooling a little, then eats the moment the bowl touches the floor, licking every last bit. Sound: crunching, owner saying "only the best for you". 15-20s (Paw massage): Living room couch in the afternoon, soft daylight. The owner, a woman in her early 30s with dark wavy shoulder-length hair, gently rubs one of the dog's front paws while he lies on his side across her lap, eyes closed, completely limp. Sound: a deep groan, quiet room. 20-25s (Patio king): Back patio on a sunny afternoon, concrete pavers and potted plants, a raised mesh dog bed with a cushion under a small patio umbrella. The dog lounges on it, chin on the edge, watching the yard with heavy, satisfied eyes. Sound: birds, wind chimes, a lazy sigh.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
