He Picked Us

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He chose us at the shelter and he still chooses us every day: picking the owner's lap, waiting at the window, leaning on the partner, shadowing her in the garden and squeezing between us on the couch.

TIMELINE

0-5s	Choosing her lap
5-10s	Window watch
10-15s	Leaning in
15-20s	Garden shadow
20-25s	Squeezing in

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Choosing her lap): Living room in the evening, warm lamp light, beige carpet. The owner sits on the floor near the dog's bed. The dog walks past his bed without looking at it, lies down beside her and lays his head right in her lap. Sound: a soft sigh, owner whispering "hi, you". 5-10s (Window watch): Front window of the living room, late afternoon daylight. The dog sits with his front paws on the low window seat, staring out at the driveway. A car pulls in outside, out of focus, and his ears shoot up and his tail starts wagging. Sound: a car engine outside, an excited whine. 10-15s (Leaning in): Front hallway, late afternoon daylight from the open door. The partner, a man in his early 30s with glasses and short hair, steps in and the dog leans his whole weight against his legs, looking up at him while the man rubs his ears. Sound: partner saying "I missed you too", tags jingling. 15-20s (Garden shadow): Backyard vegetable garden on a warm evening, natural daylight, raised wooden beds. The owner, a woman in her early 30s with dark wavy shoulder-length hair, waters the plants with a hose. The dog follows right behind her, step by step, stopping whenever she stops. Sound: water spraying, crickets starting, owner laughing "my shadow". 20-25s (Squeezing in): Living room at night, warm lamp light, grey couch. The owner and her partner sit close together. The dog climbs up and wedges himself right between them, pushing them apart, then settles with his head on the partner's knee and his back paws on her lap. Sound: couch creaking, both laughing, a contented groan.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

FACEBOOK CAPTION

At the shelter he walked straight past everyone and sat at our feet.
He still does that every day.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
