He Never Leaves My Side

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A normal Saturday at home where the dog quietly follows the owner everywhere: folding laundry, watering plants, taking out the trash, fetching the mail and finally resting together on the couch.

TIMELINE

0-5s	Laundry company
5-10s	Following to plants
10-15s	Trash run together
15-20s	Mailbox walk
20-25s	Couch rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Laundry company): Small bedroom, late morning daylight through white blinds, unmade bed with a laundry basket on it. The owner, a woman in her early 30s with dark wavy shoulder-length hair, folds a grey towel. The dog lies on the rug right beside her feet, chin on his paws, eyes following every move she makes. Sound: towel flapping, quiet room, the dog's soft sigh. 5-10s (Following to plants): Living room, natural daylight, wooden floor, a row of potted plants on a low windowsill. The owner's hand tips a small green watering can over a pothos. The dog walks up and stands right beside her legs, sniffing the wet soil, then sits down pressed against her calf. Sound: water trickling into soil, claws on the wooden floor, owner says "you have to help, huh?". 10-15s (Trash run together): Driveway outside a small house, overcast midday light, grey bins by the garage door. The owner walks a full trash bag to the bin, filming with her other hand. The dog trots right next to her knee, glancing up at her, then waits beside the bin while she drops the bag in. Sound: bin lid thumping, gravel crunching, distant traffic. 15-20s (Mailbox walk): Front path of the house, cloudy daylight, patchy lawn and a black metal mailbox at the curb. The owner walks down the path and the dog stays glued to her side, matching her pace. She pulls a few envelopes from the mailbox and he sniffs her hand, tail swaying. Sound: mailbox door creaking, birds, tags jingling. 20-25s (Couch rest): Living room couch, soft afternoon window light, a beige throw pillow. The owner sits down and puts her feet up. The dog immediately lies on the floor against the couch, then rests his chin on her knee and closes his eyes as her hand strokes his head. Sound: couch creaking, a long content sigh, owner whispers "my shadow".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
