Waiting Up for Me Every Night

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The owner comes home late from work and the dog is still awake waiting: watching from the window, greeting at the door, following her to the kitchen, leaning on her while she takes off her shoes and finally going to sleep.

TIMELINE

0-5s	Window lookout
5-10s	Quiet door greeting
10-15s	Kitchen follow
15-20s	Shoes off together
20-25s	Finally sleeping

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. 0-5s (Window lookout): Living room at night lit by one ordinary table lamp, the rest of the house dark. Filmed by the owner as she steps in from the hallway: the dog is sitting on the couch facing the front window, ears up, then turns his head toward her and his tail starts thumping on the cushion. Sound: quiet house, tail thumping on the couch, owner whispers "you waited again?". 5-10s (Quiet door greeting): Front entry at night, small ceiling light on, shoes lined up on a mat. The dog hops off the couch and walks to the owner, a woman with dark wavy shoulder-length hair in a work coat, wiggling softly and pushing his head into her free hand. Sound: soft whining, keys dropped in a bowl, tags jingling. 10-15s (Kitchen follow): Kitchen at night, only the light above the stove on, beige tile floor. The owner sets her bag on the counter and fills a glass of water at the sink. The dog stands right behind her legs, sniffing the bag, tail swaying slowly. Sound: tap running, bag set down, claws clicking on tiles. 15-20s (Shoes off together): Bottom of the staircase at night, warm hallway lamp, carpeted steps. The owner sits on the second step and pulls off her ankle boots. The dog leans his whole side against her knees and rests his chin on her shoulder while she sighs and hugs his neck. Sound: boots dropping on the floor, a tired laugh, owner says "long day, buddy". 20-25s (Finally sleeping): Upstairs hallway at night, dim light coming from the open bedroom door. The dog walks to his round grey bed beside the doorway, turns two circles and lies down with a big sigh, eyes already closing now that she is home. Sound: bed rustling, a deep sigh, house going quiet.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Window lookout

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male short-coat grey sable German Shepherd with a wolf-grey coat of black-tipped hairs, a darker back and dark face mask, lighter cream-grey legs and chest, upright ears, warm brown eyes, wearing a dark red leather collar with a small brass tag. Living room at night lit by one ordinary table lamp, the rest of the house dark. Filmed by the owner as she steps in from the hallway: the dog is sitting on the couch facing the front window, ears up, then turns his head toward her and his tail starts thumping on the cushion. Sound: quiet house, tail thumping on the couch, owner whispers "you waited again?".

Clip 2 | 5-10s | Quiet door greeting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
